10 Industrial Powers Agree On Plan to Boost IMF Funds

YARIS - Officials of the 10 major Western industralized nations mok a major step Friday toward belstering the International Moneary Fund's ability to come to the

ty paying their debts.
Negotiations on improving IMF resources have been speeded up because of fears that the continuing recession could cause a finan-cial crisis that would deepen the severe debt problems of such developing countries as Brazil, Mexico and Argentina.

Deputy finance ministers and central bank representatives of the so-called Group of 10 industrialned nations reached agreement on the need to beef up the IMF's regplan resources by at least 40 per cent and to enlarge and modify a special emergency fund managed by the IMF.

Some European countries had

the IMF's executive board in weeks, participants at Friday's

One aim of the discussions will be moving up a meeting of the IMF's decision-making interim committee to February from April. Monetary sources said the officials also discussed Friday the rules that will govern borrowing from an expanded GAB.

The United States, Britain, West Germany, France and Japan, nar-rowed differences on the IMF is-sues at a meeting in West Germa-ny which ended earlier Friday.

U.S. Treasury Secretary Dooald Regan said then that a final deci-sion would be left to the IMF .board and its interim committee.

Access to the GAB money would be expanded to include any of the 146 IMF members with halance-of-payments problems if the IMF's quota resources were running short and if their problems were likely to endanger the stabili-iy of the world monetary system, the mooetary sources said. The extra money for the GAB will probably be provided by Switzerland and Saudi Arabia.

The sources said European states were still pressing the United States to agree to raise quotas by 50 percent rather than 40 per-

Mr. Regan called this week for a review of the world monetary system in achieve more stability but the sources said this initiative was not discussed in depth here.

Curiosity on Regan Plan
Mr. Regan said Friday that
finance ministers and central bankers at the Kronberg meeting reacted with "caution and curiosity" to his proposals for a thorough review of the international monetary system, United Press International reported.

Mr. Regan said he was encouraged to "go away and come up with more specific plans" to reform the system.

General Says Israel May Remain In Lebanon for Most of Next Year

Compiled by Our Staff From Despetches
TEL AVIV — Major General
Ehud Barak, chief of planning on the Israeli general staff, said Friday that there was a possibility the Israeli Army would remain in Lebanon for most of next year.

General Barak told the Haifa Maritime Club that the army was working on two plans, one envisaging an Israeli pullout from Leba-non within the next six months and the other based on the possibility that-Israeli-troops will remain there for most of next year. He said Syria was apparently

being very careful not to become involved in an all-out war with Israel in Lebanon in the winte The Israeli general said the as-

sessment in the highest army echelons was that Syria would not withdraw its forces from Lebanon before it was certain such a move would be advantageous in strategie and political terms.

In Washington, the administration's chief Middle East negotia-

tor, Philip C. Habib, prepared to return to Lebanon in a renewed effor to "accelerate" talks for the withdrawal of Israeli, Syriao and Palestinian troops.

And in Lebanon, police moved

ioto buffer zooes between battling Moslem militias in the northern city of Tripoli and called for a

The general's remarks to the luncheon club were carried on the Israeli radio. He rarely appears in public and his talk Friday was believed to be part of Israeli attempts to tone down criticism of Israel's continued presence in Lehanon.

The general also said there appears to be a move in Lehanoo toward oegotiations with Israel. He said Israel and Lebanon were in contact to "prepare the ground" for talks on an Israeli withdrawal. He said Israel's control of the Chuf mountains and the Beirut-Damascus highway were vital to a favorable outcome of the negotiations from Jerusalem's viewpoint, The hattle for dominance of Tripoli, in Syrian-occupied northern Lebanon, has left 28 persons dead and 94 wounded.

under way in Lebanon's secondlargest city at 3 P.M. and within one hour four separation zones were set up between warring pro-Syrian Alawites and Palestinianbacked Sunnis, the radio said, Police patrols made cease-fire appeals through loudspeakers as they took up buffer positions. The combat tapered off into occasional sniping

Reagan Outlines Way of Lifting **Polish Sanctions**

Washington Past Service
WASHINGTON — The United States will lift trade sanctions against Poland if the Polish gov-ernment ends martial law, releases all political prisoners and begins talks with the church and trade un-ion officials. President Ronald Reagan said Friday.

Mr. Reagan indicated later that be is open to compromise oo how to hase the MX missile. He also said the administration suffered a defeat to the House of Representatives on Tuesday oo the MX issue because many congressmen mis-takenly thought they were voting on the dense pack basing plan for the system instead of oo money for initial production of the weapon.

Mr. Reagan said be has been informed that the Polish government will "take steps" in the direction of removing martial law in coming

"The United States is prepared to respond to genuine liberalizing actions by the Polish government," Mr. Reagan said. "Any such ac-tions will be the subject of careful

discussions with our allies." "I repeat, if the Polish govern-ment introduces meaningful liberalizing measures, we will take equally significant and concrete actions of our own," be added.

Mr. Reagan made his statement to a group of Polish-Americans and members of Congress at the White House in a ceremony mark-ing the approach of the first anni-versary of the imposition of martial law in Poland.

The president said the United States would help Poland rebuild its economy — "as we have helped the countries of Europe after both. world wars" - if the Polish government meets U.S. demands.

In response to the crackdown io Poland, the United States canceled the country's most-favored-nation trade status. Mr. Reagan said be could still see evidence of Soviet intervention in Poland, elaiming that the imposition of martial law was "carried out under intense 5:vict pressure, using tactics of branch force and intimidation."

The president told an informal

news conference later Friday that

the dense pack basing system for the MX missile. He stressed, however, that proposals on how to base the missile can still be dis-

Mr. Reagan said opponents of the MN to the House fostered the misunderstanding on the vote funds for production of the mis-

The president, calling for Senate approval of the MX proposal, added that he has heard no argument against the need for the missile.

The president said congressional coocern over the missile's cost and its potential effect on the U.S. economy was misplaced. He ex-plained that the best way to keep down the cost of the U.S. military budget is to have sufficient military strength to force the Soviet

Union 10 agree to arms control. At the press conference, which was held in the Oval Office, Mr. Reagan also reiterated his belief that the anti-nuclear movement in the United States is being influenced by the Soviet Unioo.

The president said research on articles elaiming that the Soviet Unioo supported the anti-ouclear movement found that the reports "did check out."

Mr. Reagan said Thursday that all five members of the Joint Chiefs of Staff had agreed to put aside their reservations and support the dense pack plan "if this was the method I chose."

Army General John W. Vessey

chairman of the Joint Chiefs of Staff, told the Senate Armed Services Committee oo Wednesday that only he and General Charles A. Gabriel, chief of staff of the air force, had recommended unequivocably to Mr. Reagan that he deploy the MX in the dease pack for-

Pentagon spokesman Henry E. Catto Jr. on Thursday said, would not reach the conclusion that this [split among the joint chiefs] will kill dense pack. The 'Madness of the Arms Race' Propels Palme to New Activism

By Peter Osnos

STOCKHOLM -- Olof Palme. Sweden's prime minister, dispatched a formal note this week to NATO and Warsaw Pact governments seeking support for a plan to remove short-range or "hattlefield" nuclear weapons from a swath of Central Europe, an idea that he says would sharply reduce chances that a regional cooflict might escalate to nuclear

Given the host of other disarmament proposals curreotly on the ageoda, Mr. Palme's foray is plainly a long shot. But the fact that be is pressing it publicly confirms that Mr. Palme, whose Social Democratic Party was returned to power by Swedish voters this fall after six years in opposition, intends to pursue the outspoken international activism that has made him Scandinavia's best-known po-

The sheer irrational madness of the arms race has become ever more obvious to me," Mr. Palme, 55, said in an interview this week. "Why should [the superpowers] go

on piliog up nuclear weapons to an ever-increasing degree of insecurity? I have become an increasingly firm believer in arms control and real reductions ...

"The alternative is horror. There

is oo douht in my mind that there will be world wars that would lead to the obliteration of mankind." Removing some of the thousands of small nuclear warheads arrayed on both sides of Europe's

divide would be a welcome, if limited, "confidence-building measure," Mr. Palme said.

UN General Assembly calls for full test-ban treaty. Page 2.

In his years out of office, Mr. Palme honed a claim to expert views on disarmament and other global matters in a series of foreign tasks and assignments. The idea of a nuclear-free zone, for instance, was put forth last spring by the Independent Commissioo oo Disar-mament and Security Issues, which Mr. Palme chaired and which also included Cyrus R. Vance, former U.S. secretary of state, and David

Owen, former foreign secretary of Earlier, Mr. Palme served as a

key member of the Brandt Commission, which in 1979 produced a major study of North-South eco-comic relations. It is about to release a report confirming its previ-ous gloomy assessment of the prospect of national bankruptcies, the spread of bunger and the plight of Third World countries.
"Sweden itself today is in a very

difficult economie situation" in which it must cope with the effects of the ioternational recession, declining exports, lower industrial in-vestment and a substantial foreign debt. Mr. Palme said this week But we must stubbornly uphold the idea of spending I perceot of our gross national product on foreign aid ... with great trouble."

This pledge means an annual Swedish commitment of more than \$1 billion in assistance to developmg countries.

In his last period as prime minis-ter, from 1969 until he was defeat-ed in 1976, Mr. Palme strongly opposed the American role in Vietnam. In commenting this week on

Olof Palme

the Reagan administration's policy in Central America, Mr. Palme chose his words carefully, balancing criticism with advice for an alternative strategy. Mr. Palme said he is "deeply

worried about developments in Central America, the mounting repression. Some of these people being killed are old friends of mine Guatemala, El Salvador I think the Reagan administration is putting too much emphasis on military means and too little emphasis oo talks and negotiations or eco-nomic and social reform."

"When the U.S. takes responsi-(Continued on Page 2, Col. 6)

fundamentalist parties, there were representatives of every resistance party, fundamentalist or moderate. Nor was the mullah who had led the prayer an ordinary village cleric. He was one of a three-man commission who had been sent by party leaders in Peshawar, Pakistan, with the express task of coo-vening the special meeting, or "majlis," in a bid to promote a greater degree of cooperation and even integration among the vari-

ous rebel factions. In Afghanistan, where the resistance has always been bedeviled by the main mosque of the village of fierce interfactional disputes and a

distrust bordering on outright ha-tred, such a meeting is a rare occurrence iodeed. And an important one, for the

mailis held on the crisp autumn Sunday morning of Oct. 24 illustrated a growing awareness of the need for greater unity on just among the insurgeots lighting inside Afghanistan, but also among the various party leaders operating in Peshawar, across the border. If a tangihle and substantive unity were to grow from this awareness, it would be a development of some significance in the war the insurgents have waged for the past three years against the Soviet-backed Communist government in Kabul.

It is not, however, a develop-ment that will come about overoight. The meeting in Chaqari lasted a full seven hours—a very Af-ghan seven hours, full of powerful and flowery rhetoric in which Islam and Allah played a major role and which finally came to an end with no more than a broad agreement to hold further talks on

To have expected any other conclusion to the proceedings would

eration among rebel groups.

have been quite unrealistic. For since its very conception in the mid-1970s, when the first armed insurrections occurred against the government of President Mohammed Daoud, who was overthrown in a coup by Marxists in April 1978, the Islamic insurgents have been plagued by bickering, petty in-fighting and constant in-

ing the rightists to overthrow the

WASHINGTON - In a move that could have a major impact on U.S.-Israeli relations, several American Jewish organizations are warning Prime Minister Menachem Begin of Israel that he cannot count on their automatic support if his continued rejection of President Ronald Reagan's Middle East peace initiative leads to a confrontation with Washington.

Essentially, the message these groups are conveying in public statements and private conversations with Mr. Begin and other Israeli officials can be summarized in this way:

Although the commitment of American Jews to Israel's security gressive actions by the Begin government, such as the invasion of Lebanon, initial resistance to impartial investigation of the massacre of Palestinian civilians in Beirut, refusal even to consider the Reasan initiative and defiance of U.S. objections to additional Jewish settlements in occupied Arab

As a result, if Mr. Begin's inflexibility puts him on a collision course with Mr. Reagan, he could find the American Jewish community deeply divided and greatly hampered in its ability to muster backing from Congress and American public opinion.

But there is general tacit agreement about distinct limits on how and welfare remains constant, far American Jews should go in

challenging Mr. Begin. Almost every prominent figure in Jewish organizational circles says flatly that any attempt by the administration to use U.S. financial aid to pressure Mr. Begin would immediately cause the vast majority to rally to Israel's defense.

There is also no evidence to indicate that Mr. Begin has been affected by the warnings. But these stirrings are of importance to the Reagan administration, which is working in part on the assumption that neither Mr. Begin nor the Is-raeli public can afford to ignore concerns of the American Jewish

Recently, the board of the Union of American Hebrew Congregations delayed until its 1983 convention a resolution that would exilar to that in Mr. Reagan's initia-

Rabbi Alexander Schindler, the group's president, cantioned its members not to make Israel "our surrogate synagogue."

While expressing reservations about the Reagan initiative, both B'nai B'rith International, the largest U.S. Jewish service organization, and the American Jewish Committee have said it deserves further consideration and should not be rejected out of hand.

American Jewish sources say the same attitude has become domiin other organizations, ingress, the National Council of Jew-ish Women and the Central Conference of American Rahhis.

U.S. officials have privately outlined a scenario that calls for Mr. Reagan to make clear to Mr. Begin that the United States will not back away from its proposal that the West Bank and Gaza, after territorial adjustments to protect Israel's security, be given eventual independence "in association with

By this scenario, the Arab na-tions would be obliged to recog-nize Israel and its right to live in peace, and if Mr. Reagan stands firm, Mr. Begin must then choose risking a direct confrontation with the president or moderating his

pens, there really isn't anything that President Reagan could do about it except to try and get tough by using the threat of cuts in military aid or something like

"But, if the administration does that. Mr. Berman added, "it will be going beyond the limits of what is acceptable to the Jewish commu-nity. Whatever split now exists will be healed, and all of the major Jewish organizations, whatever resolutions they may have passed, will unite again behind Israel."

One leader with extensive experience in pro-Israel lobbying in

Or, said Julius Berman, chairman of the Conference of Presidents of Major American Jewish Organizations: "They could simply agree to disagree, and if that hapit just doesn't play. On every such go around, you find that people on Capitol Hill are a little more imtated and a little less willing to histen to you sympathetically.

Still, according to Warren Eisenberg, director of the international council of B'nai B'rith many Jews have hardened their views.

But he added: "It's clear when you travel around the country that the events of the past few months have caused many Jews to lose their old one-dimensional, idyllic view of Israel. They still love Israel dearly, but they are troubled by things that they think are wrong."

Menachem Begin

Churches, Media in South Africa **Express Concerns on Lesotho Raid**

JOHANNESBURG - South African church leaders and the English and Afrikaans press reflected widespread dismay and doubts Friday over South Africa's raid early Thursday into Lesotho.

The South African Defense Force said the strike on Maseru, Lesotho's capital, was directed at guerrillas preparing to conduct a series of terrorist acts in South Af-rica and the neighboring black homelands of Transkei and Ciskei during the Christmas holidays.

Church leaders said Friday the government seemed to be resorting

The opposition Rand Daily Mail commented that "whatever the short term advantages" of the raid, "there is no military solution to South Africa's political quan-

In Pretoria, the minister of police and prisons, Louis Le Grange, announced a slight relaxation of a banning order on the Rev. Beyers Naude. Mr. Naude, 67, broke with the Dutch Reformed Church many years ago over racial separation and founded the Christian Institute to fight for black rights.

In a statement, Mr. Le Grange said a review board had recommended retaining the three-year panning order imposed in October. It followed a five-year order im-

posed in 1977.

The statement did not specify how the restrictions would be relaxed. Mr. Naude's wife, Isle, said he would be able to attend meetings but would still be barred from public speaking and being quoted

ARGENTINE DEMONSTRATION - Protesters in Buenos Aires on Thursday shouted at police who blocked their march to the main plaza in the city to demand information about persons who disappeared during the government's campaign against leftist guerrillas. Armored and cavalry units stood by but did not move to disperse the crowd of about 1,500 persons.

UN Calls for Full Test-Ban Treaty

New York Times Service UNITED NATIONS, New York The General Assembly, which has repeatedly urged a ban on nuclear tests, has adopted three resolutions calling for a comprehensive test-ban treaty. All the resolutions were adopted by wide margins Thursday, with the United States

Kenneth L. Adelman of the United States said that "while a prohibition; on all, puclear explo-

ent circumstances, a comprehensive nuclear test ban would reduce the threat implicit in the existing stockpile of nuclear weapons."

In his statement, reiterating a

position adopted during debate on the issue. Mr. Adelman also said verification would pose "a serious problem." The first resolution, sponsored

by Australia, Austria and a score of other nations, called for a treaty outlawing all noclear detonations. It was adopted by a vote of 111 to l, with 35 abstentions.

The two other resolutions envisaged a treaty that would ban the testing of nuclear arms hut would permit nuclear detonations for peaceful purposes. The first these motions was adopted, 124 to 2. with 19 abstentions. The other, put forward by the Soviet Union, was adopted by 114 to 4, with 26 abstentions.

A partial test-ban treaty was concluded in 1963, but did not ban underground testing. The treaty was signed by the United States, Britain, the Soviet Union and more than 100 countries, but not France and China.

U.S., Israel Criticized The Associated Press reported

But the American involvement in Central America, Mr. Palme added, cannot be compared to the Soviet role in Afghanistan, "an outright invasion ... a terrible mistake."

■ Peace Groups Supported Paul Anastasi of The New York Times reported in Athens:

Prime Minister Andreas Papandreou called Friday on all Western governments to stop looking at the peace movement as an opposition force and instead support it.

The Socialist leader said his government seeks multilateral de-nuclearization of the Balkans but indicated that Greece could also move unilaterally to expel U.S. nuclear arms in Greece should agreement not be reached with its Cummunist neighbors.

Greece and Romania agreed last month to call a summit conference of Balkan states aimed at de-nuclearizing the Balkans within 18

Iran Elects Assembly That in Turn Will Pick Successor to Khomeini

Compiled by Our Staff From Dispatches NICOSIA — Iranians went to the polls Friday to elect a special Assembly of Experts that will in turn name a person or a council as successor to Ayatollah Ruhollah Khomeini, 83, after his death, the Iranian news agency, IRNA, re-

The voters will chose 83 assembly members out of 146 candidates, all of them ullemas, or relig-

IRNA said the Assembly of Experts would decide whether to name a single person as Ayatollah Khomeini's successor, or whether to appoint a council of five or six to act as a collective leadership.

The succession question has exacerbated existing factional ten-sions between radicals and conservatives in Iran's clerical leadership. The radicals, headed by Ayatollah Khomeini, have been pressing for Ayatollah Hossein Ali Montazeri to be proclaimed suc-

The nomination of the relatively junior clergyman has been opposed by a majority of Iran's six grand ayatollahs who share the highest title of the Shiite Moslem sect with Ayatollah Khomeini.

Tehran radio has recently been relerring to Ayatollah Montazeri as a grand ayatollah as part of an apparent bid to establish his

credentials for the leadership post.

The radio noted Friday that Grand Ayatollah Mohammed Reza Golpaygani was among the early voters, scotching rumors that be intended to lead a boyout of the poll.

Despite the cold weather, long lines formed in front of the polling stations in Tehran, while mobile stations roamed the city to collect votes from hospitals and other places where people cannot leave

The agency said reports from the provinces indicated that the election was progressing normally in other cities and towns.

Iranian leaders, including President Ali Khamenei; Chief Justice Musavi Ardabili; the speaker of parliament, Hashemi Rafsanjani; the prosecutor general, Musavi Ta-brizi, and members of the parliament voted in Tehran.

IRNA said Ayatollah Khomeini, the supreme religious and political leader of the country for life, had also cast his vote. In a speech last month Ayatol-

lah Khomeini urged everyone to vote as a duty "to preserve the uni-ty of the country." All Iranians, male and female, over 16 can vote.

The procedure for the election of the assembly was laid down in the constitution adopted by the of the Iranian monarchy in February, 1979. Islamic regime after the overthrow

Ankara Seeks Extradition of Turk

ANKARA (AP)— Turkey has asked Bulgaria to extradite Bekir Celenk, an accused gun smuggler who is also wanted in Italy in connection with the shooting of Pope John Paul II, Justice Minister Cevdet

Mentes said Friday.

Mr. Mentes said that Turkey wanted Mr. Celenk on charges of smuggling and violating Turkish foreign exchange laws. The minister said Turkey and Bulgaria had an extradition treaty.

Italian officials also have a warrant out for the arrest of Mr. Celenk for complicity in the wounding of the pope on May 13, 1981, hy Mehmet Ali Agca, who is serving a life sentence for the attack. Bulgaria's official agency. BTA, reported Thursday that Mr. Celenk tained by Bulgarian police who would launch their own investigation

117 Countries Sign Sea Law Treaty

MONTEGO BAY, Jamaica (AP) - The Law of the Sea Convention was signed Friday by 117 countries at a ceremony here. The action was the first step in the process of forming an international authority to

regulate the mining of mineral deposits on the ocean floor. Twenty-one countries that participated in the Law of the Sea Conference, which wrote the treaty, did not sign the convention Friday. Among them were the United States, West Germany, Belgium and Britain, all of which objected to the treaty's provisions on seabed mining. Japan also did not sign but has indicated that it will later.

UN officials announced at the ceremony that the signature of the delegation from Fiji had already been ratified by the country's government. The treaty takes effect when 60 nations have ratified their dele-

Soviet Cosmonauts Return to Earth

MOSCOW (AP) - Two Soviet cosmonauts, Lieutenant-Colonel Anatoly Berezovoy and Valentin Lebedev, returned safely to Earth Friday night after nearly seven month aboard the Salyut-7 orbital research stanion, ending history's longest space flight, Tass reported.

Moscow Radio said the Soyuz T-7 descent module landed in the "designated area" in Kazakhstan, a Soviet republic in central Asia. A medical checkup on landing showed the cosmonants were "feeling well," the

Colonel Berezovoy and Mr. Lebedev, an engineer, spent 211 days in space, exceeding by almost a month the 185-day space endurance record set in 1980 by their countrymen Leonid Popov and Valery Ryumin.

Nobel Winner Calls for New Award

OSLO (UPI) - The Nobel Peace Prize should be awarded solely for work in disarmament and a new nward should be created for human rights, said the Mexican diplomat, Alfonso Garcia Robles, Friday in accepting the 1982 award with the Swedish anni-ouclear campaigner,

Alva Myrdal.

Mr. Garcia Robles, who was cited as the driving force behind the treaty declaring Latin America a nuclear-free zone, told the Norwegian Nobel Committee that the peace prize was too seldom awarded for disarmament efforts. He stressed that he implied no criticism of previous

peace prize recipients.

Mr. Garcia Robles, who is his country's chief delegate to the United Nations, said the new award should be for work in the field of human rights. Mcanwhile in Stockholm it was International Human Rights Day and bundreds of demonstrators lined the streets as other Nobel winners arrived for the prize-awarding ceremonies.

Israel to Build Nuclear Power Plant

TEL AVIV (AP) — Energy Minister Yitzhak Modai said Thursday that Israel will start building a commercial nuclear power plant within a year. Israeli Radio reported. Israel aiready has a nuclear research reactor

The radio said that Mr. Modai made the disclosure following a meeting with Edward Teller, one of the members of the U.S. Manhattan Project that developed the world's first atomic bomb. Mr. Teller is touring Israel as a guest of Science Minister Yuval Neeman. A spokesman for Mr. Neeman said Sunday that Mr. Teller is advising Israel on the development of nuclear power reactors.

Last March, the Energy Ministry approved the construction of a \$180million experimental nuclear reactor by private American investors. It was not clear from the radio report whether the two projects were relat-

House Report Shows Soviet Bid to Influence **Nuclear Freeze Drive**

New York Times Service
WASHINGTON — A report ished by the House Select Commitse on Intelligence has presented yidence that the Soviet Union has yied to influence the American nclear freeze movement, but the eport does not appear to support resident Ronald Reagan's asseron that foreign agents were "ma-ippliating" the movement.

Representative Edward P. Boand Democrat of Massachusetts, hairman of the House panel, stated in a news release accompa-aying the report Thursday that the report shows that the "Soviet Unon utilizes considerable amounts of time, money and manpower at-tempting, both covertly and overt-ly, to influence individuals, organ-izations, and events in the United States and around the world."

But after reviewing the report, Mr. Boland said he bad concluded that "Soviet agents have had no significant influence on the ouclear recze movement."

The bottom line is that the hearings provide no evidence that the Soviets direct, manage or maripulate the ouclear freeze movepent," he said.

The report summarizes hearings seld in July at which senior officials from the Central Intelligence Agency and Federal Bureau of Inrestigations testified before the panel about Soviet clandestine efforts to influence events and publie opinion overseas.

Representative C.W. Bill Young,
Republican of Florida, a member
of the committee, said Thursday
that the hearings had not focused on the nuclear freeze movement.
Thus, he said, it was not surprising that no conclusions about the success of Soviet infiltration in the movement had been drawn.

In testimony, John McMahon, deputy director of the CIA, said the Soviet Union has had a very extensive effort to promote opposi-tion in Western Europe to the deployment there of Pershing-2 and about the impact of that involvement, but it does not come to any conclusion about the impact of that involvement.

the Soviets have sought to exploit and manipulate the movement, and we believe that the Soviet covert support has enabled it to grow beyond its own capabilities," Mr. McMahon concluded.

However, the FBI does not come to similar conclusions about come to similar conclusions about the impact of Soviet efforts to in-fluence the American freeze camfluence the American freeze cam-

paign.

Edward J. O'Malley, assistant director of intelligence for the FBI, asserted that Soviet front groups, which it identifies as the U.S. Peace Council, the World Peace Council and Communist Party of the Vision of the Vision Council and Communist Party of the Vision Council and Communist Party of the Vision Council and Coun the United States, were "actively involved in the planning and im-plementation of the June 12 dem-onstration in New York," which attracted more than 500,000 peo-

But Mr. O'Mailey added: "I would not attribute the large turnout at this demonstration," to ef-

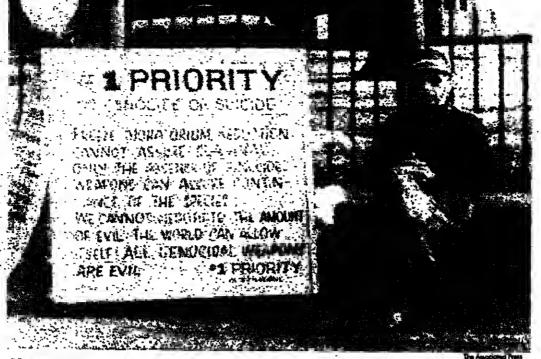

forts by those groups.

The FBI concluded: "We do oot see Soviet active measures in the United States as having a signifi-cant impact on U.S. decisioo mak-

Mr. Reagan stirred concerns about foreign involvement in the freeze movement when he said while campaigning in October that foreign agents were "manipulating" innocent people who urge the United States and Soviet Union to negotiate a bilateral, verifiable freeze on the prodoction, testing, and deployment of ouclear weap-

After the election last month, Mr. Reagan reiterated that assertion and said there was "plenty of evidence" of such foreign involve-ment, which he could not discuss. The oext day, a White House spokesman said that the House Intelligence Committee was prepar-ing to release a report that would document Mr. Reagan's charges. The report provides some evi-

dence for Soviet involvement, but

Norman D. Mayer, who was killed by the police at the Washington Muoument, is shown protesting at the White House on Oct. 30. The photo was taken by a Washington student, Nancy Shia.

At Reagan's Gate, the Causes Vary

By Lynn Rosellini

New York Times Service WASHINGTON -- Oo Wednesdays, a group supporting the Equal Rights Amendment usually dem-onstrates at the western end of the sidewalk outside the White House, while a ouclear freeze group occumes the eastern end.

At other times, a woman with a sack oo her head, wearing a sandwich board covered with pictures of herself, marches up and down the sidewalk. No one is sure what

"They're always out there," said a Secret Service agent, warming himself in a guard booth.

Ten people have tried to scale
the White House sence in the last

year, according to the Secret Service. But mostly, the protesters are peaceful, with the most demonstrative among them occasionally handcuffing themselves to the wrought-iron fence.
Uotil Wednesday, Norman D.

Pentagon Sets New Policy on Lie Detectors

By George C. Wilson .

Washington Post Service WASHINGTON - The Pentail plans to widen the of lie detectors to combat espionage, while a law professor has charged that the real objective is the intimidate defense employees who might give out embarrassing

"Although the proposed policy changes admittedly would permit a greater use of the polygraph within defense, the effect of these changes is ocither as dramatic oor pervasive as one might believe from the press coverage," Richard G. Stilwell, deputy under secretary of defense for policy and a reured army general, told the House Judi-ciary subcommittee un civil and constitutional rights on Thursday.

Mr. Stilwell said "a substantia expansioo" of the use of lie detectors is likely only in those defense agencies doing intelligence work, conducting sensitive research or involved with operations requiring "compartmented" access, such as the Iranian rescue mission in 1980.

He confirmed that the directive would empower Pentagoo executives to ban people who refused to take lie detector tests from certain sensitive jobs and that employees holding special intelligence creden-tials would have to undergo such examinations to keep those

Outside of those special categories, people could refuse to take polygraphs without penalty, Mr. Stilwell said. "It is oot our desire to clamp down on leakers" that motivated the directive authorizing wider use of he detectors, be said; the aim is to provide "greater as-surance" that defense employees in sensitive positions "are out spying

for a hostile government."

Henry E. Catto Jr., a Pentagoo spokesman, said that wider use of polygraphs was considered because "we want to discourage peo ple with hidden agendas? from leaking information "outside the democratic process."

Eight other governors also have called their legislatures into special session over the next few weeks to struggle with big budget deficits caused by the prolonged recession, which has swelled unemployment rolls and reduced tax revenue Twenty-seven states have cut their budgets since July and eight others

The appeal had been supported by prominent Austrian and West German politicians. Barta was initially sentenced to 18 months in prison by a court in Liberec, Czechoslovakia, in April

ROME - Prime Minister Amin-tore Fanfani, introducing his new

government's program to Italy's parliament Friday, realfirmed his

nation's commitment to accept NATO missiles, but called for re-

duced military spending.
Mr. Fanfani, 74, a Christian
Democrat, also said his party's coalition with the Socialists, Liberals

and Social Democrats wants to cul

government spending and promote new jobs through construction

The 28-page address, which was handed to the Chamber of Depu-

ties after Mr. Fanfani spoke before the Senate, is to be the basis of a

confidence vote expected Saturday

in the upper house and next week

Although the Republican Party

of the previous prime minister

Giovanni Spadolini, said it would

abstain from the vote, Mr. Fan-

fani's coalition is expected to win

easily because it controls 53 per-

Mr. Fanfani, a former Senate

president who is heading his fifth

government, was asked by Presi-

dent Sandro Pertini to form Italy's

43d postwar government after Mr.

Spadolini's five-party coalition col-lapsed in November.

The prime minister said his gov

ernment "reaffirms the dual deci-sion of December 1979."

He was referring to Italy's ac-eptance of 112 of the 572 new

U.S.-built cruise and Pershing-2

nuclear missiles on the condition

that negotiations begin between the United States and the Soviet

Union on nuclear arms reductions.

Mr. Fanfani said he also contio-

ued to support President Ronald

cent of the parliamentary seats.

in the lower chamber.

Problems Growing for French Military

By John Vinocur New Yark Times Service

PARIS - The extraordinary charmed life of the French military establishment appears to be coming to an end in a debate on finance, manpower and strategy that could affect France's allies.

What is dying is the 26-year-old system under which the military and the government always got what they wanted in terms of men and equipment and France's battle strategy went unchallenged. There was no public debate on the military in the sense that it exists in the United States or West Germaoy, and the opinion polls showed that there was no special concern about nuclear deterrence or mili-

Nothing has suddenly happened to stir a debase from the ground

up. For most people in France the sures were a machination against the Socialist government. independence, and France's nuclear weapons are its ticket to consideration in discussions of the global balance of power.

But many things inside the mili-tary establishment have good away all at once, and the country this week has watched the novelty of

NEWS ANALYSIS

the army, air force and navy chiefs of staff warning, in leaked docu-ments, that planned government cuts would basically after the mili-

Because the discussion is so unfamiliar here, most of the noise accompanying the warnings has been in the more comfortable area of political small change: who leaked what and to what extent the disclothe Socialist government.

The basic fact, however, was not easy to obscure. There will be significant reductions in manpower, units will be reorganized, France will not be able to continue developing both its nuclear and conventional forces and a kind of military debate will become part of French political life.

Two problems have developed to end the simple life. One involves the lack of mooey and the other the operational and strategic decisions that must be made to deal with what the French regard as a changing political environment in

The Socialist government, after increasing military spending in its first year in power, finds itself unable to provide the money needed to develop both nuclear and conThe choice was simple. "The only real means of dissuasion is nuclear," said Claude Cheysson. the minister for external relations, while acknowledging that the conventional forces would have to suf-

This approach not only makes for sour generals but also raises the question of whether the French armed forces, particularly the sir force, would be much good for anything except nuclear missions if the cuts outlined by the generals

This favoring of the nuclear at the expense of the conventional causes discomfort for another reason that is likely to attract considerable attention over the next years. While French military planning will be emphasizing nuclear arms, NATO's efforts are pointed toward developing conventional weapons of such advanced technology that the nuclear riposte would be less pressing in the event of a Soviet attack in Europe.

The government appears to be taking a risk in assuming that French public opinion will remain immune to the nuclear fears of the rest of Europe and that advances in methods of hunting missilelaunching submarines such as France possesses will not make the French atomic force insignificant.

Shrinking financial resources do not necessarily change the French nuclear doctrine of maintaining the ability to deliver enough of a blow to an aggressor's cities to stop him from attacking France. But the changing French percep-tion of how politics are developing in Europe suggests changes in strategy that run parallel to those related to a reduction in the

amount of money available. The almost overwhelming private concern of French strategists now is the possibility of a neutralized or quasi-neutralized West Germany that could no longer be counted on as a buller between France and the Warsaw Pact nations. The result is a series of at-tempts to bind West Germany to France and Western Europe through increased military cooper-

The difficulty — and the dehate will be hard to keep from the publie - is that France cannot increase West German confidence while refusing to say at what point French forces would try to repulse an attack on West Germany.

Many of the current changes in French tactics, involving the creation of an air-mobile, anti-tank force, deployment of longer-range battlefield nuclear devices that could reach attacking Warsaw Pact forces in East Germany, and the country's reported neutron weapon development, suggest that France is oow willing to fight a "forward battle,"

But this would be a break in the tradition set by the Gaullists that the French Army's duty is to defend the homeland. For the government, the political difficulties of enunciating such a shift would

Reaffirms Commitment on Missiles Reagan's so-called zero option plan, under which NATO would not install the new missiles in five European countries if the Soviet

On other foreign policy issues.

Mr. Fanfani renewed Italy's support for the entry of Portugal and Spain into the European Commu-

(\$50 billion), he proposed a onetime income tax that would bring

government spending for health. education and defense and said workers would have to contribute a larger share to the state health arrance program.

Mr. Fanfani said labor and business must reduce wage increases to help bring Italy's 17.2 percent in-flation rate down to 13 percent pext year.

Contracts for government state and industry employees expired last January and negotiations have been bogged down over automatic pay increases based on inflation and other economic factors.

To stimulate the economy and help reduce Italy's 9.2 percent unemployment rate. Mr. Fanfani To battle Italy's projected 1982 proposed a government program budget deficit of 70 trillion lire to aid new housing construction.

Greece Announces Electoral Reform; Minority Parties Expected to Benefit

ATHENS — Greece's Socialist government has announced plans in change the country's electoral system in a way that could greatly benefit minority groups, including the pro-Moscow Communist Par-

Interior Minister George Yennimatas said Thursday that the government will carry out campaign promises to abolish the present system under which, it says, large parties are overrepresented in Par-

In the elections of October 1981, which brought the Socialists to

INTERNATIONAL EXECUTIVE OPPORTUNIT

power, the Communists got only 13 seats in the 300-seat Parliament despite the fact that they received 11 percent of the vote.

Commentators have predicted a vastly increased Communist presence in Parliament if the next national elections are held under the wholly proportional voting system promised by the Socialists.

Under the current system, 200 parliamentary seats are allotted on a proportional basis while the remaining 100 are distributed among the parties that get more than 17 percent of the vote.

Bonn Votes Financial Aid For Turkey

Despite Move by EC To Continue Its Ban

BONN - West Germany will grant 413.5 million Deutsche marks (\$165 million) of aid to Torkey, despite a European Commu-nity ban on financial help to the military government in Ankara.

A Bundestag spokesman said Friday that the All-Party Parliamentary Budgetary Committee ap-proved the aid late Thursday.

The move followed the Europe an Commission's decision Wednesday not to resume aid to Turkey because of alleged violations of human rights. Bonn freze its aid to Ankara after the 1980 military takeover and promised to resume help only after Turkey showed signs of returning to de-MOCTBEY.

Opposition Social Democratum members of the Bundestag com-mittee voted against the main elements of the package - defense aid worth 130 million Deutsche marks and supplementary help of 265 million marks.

They argued that Ankara was continuing to suppress democratic organizations and to violate basic human rights.

Foreign Minister Hans-Dietrich Genscher told Hier Turkmen, Turkey's foreign minister, in Brussels Friday that Bonn expected Turkey in make progress toward democracy. A Foreign Ministry statement said the two men discussed the release of aid, but it gave no further details.

However, a ministry spokesman denied there was any conflict be-tween Bono's decision and the

EC's continuing ban.
"I see no difference here, be cause our aims are the same," he said. "We want to help restore democracy by encouragement and the community decision is based on an intention of exerting pressure. Everybody has his own meth-

Government sources said that Bonn's decision to release aid was not based primarily on Ankara's human rights record, but that it reflected a general aversion to economic sanctions

Evren to Visit Asia President Kenan Evren of Tur-

key will travel to China Sunday at the start of a live-nation tour of Asia aimed at strengthening bilateral ties in the region, Reuters reported from Ankara. In his first foreign trip since

being elected president in a national referendum on a new constitution last month, General Evren will spend four days in China, three in Indonesia, three in South Korea, two in Bangladesh and one in Pakistan before returning hone on Dec. 26.

Order Barring 2 Sinn Fein Leaders From London Embarrasses U.K.

By R.W. Apple Jr.
New York Times Service

LONDON - Once again. Northern Ireland and the violence that scars daily life there has seriously embarrassed a British gov-erament and heightened the sense of national futility.

Prime Minister Margaret . Thatcher, who stresses at every opportunity that Northern Ireland is an integral part of the United Kingdom, with citizens sharing all the rights and responsibilities of other Britons, had hoped that the new Ulster parliament would put the province on the road in local

Now she finds herself in the position of having forbidden mem-bers of that parliament to travel to London, the capital of the country of which they are said to be fullfledged citizens.

"It is a cursed place," one minis-ter said Thursday. "No matter what we do there, it turns out to be

London Council, the city government, invited two leaders of Sinn Fein, the political arm of the outlawed Irish Republican Army, in visit him here. There was a storm of protest, but Mr. Livingstone, a closed for eight days by the nacombative Labor Party leftist. stood firm.

"We cannot continue," Mr. Livingstone said, "with the absolute bopelessness of going on like this banner headline, that French im-year after year with one horrifying ports had been banned in Turkey.

bomh after another either in Ireland or in London. The government has to try to find some way of hringing the conflict to an end. To continue to refuse to talk to se groups just prolongs it."

The visit was in have taken place next week. But on Monday night a bomb went off in a discotheque in Ballykelly, near Londonderry, killing 16 persons, including 11 British soldiers. Responsibility for the attack was taken by the Irish National Liberation

Army, an offshoot of the IRA. The attack brought to 2.264 the number of people killed in Ulster-related violence since 1970 and because of the number of victims produced an unusually intense political reaction.

As a result, the Home secretary, William Whitelaw, decided Wednesday to ban the visit here of the two Sinn Fein leaders, Gerry Adams and Daniel Morrison. Act-ing with the approval of Mrs.

another calamity." The latest problem began 10 days ago, when Kenneth Livingstone, the leader of the Greater The Associated Parts Banned Turkish Paper

The Associated Press

ANKARA - Gunaydin, the Istanhul daily and one of Turkey's largest newspapers, reappeared on newstands Friday after being

tion's military rulers. Publishing sources believe the papar was shut because of a recent front page story reporting, under a

basis of the Prevention of Terrorism Act, which empowers him to exclude anyone who "is or has been concerned, whether in Great Britain or elsewhere, in the commission, preparation or instigation of acts of terrorism."

Mr. Morrison was quick to point out the anomaly involved. He said it was "nonsense" for Britain in bar people that it maintained belonged in the same country.

Several politicians of all parties said Mr. Whitelaw had acted correctly, given advice from the police that the visit "would have furthcred the ends of terrorism." But some of them also said privately that Sinn Fein had been handed a

propaganda victory.
Northern Ireland's Protestant politicans, foes of the IRA, were outraged for a different reason. Harold McCusker, the Unionist member of Parliament for Armagh, denounced the govern-ment's action as "breathtaking hy-pocrisy." He asked why, if Mr. Adams and Mr. Morrison were a threat to safety in London, they were allowed to "walk the streets

of Belfast with impunity." Michael Foot, the leader of the Labor opposition, who had tried to persuade Mr. Livingstone to cancel the visit before the Ballykelly bombing, backed Mr. Whitelaw's decision

In a statement, Mr. Livingstone "If, as the government claims, the Sinn Fein representatives are involved io terrorism, why haven't they been arrested?

International Executive Opportunities

Credit Control Manager Banking

Kuwait: Around US\$70,000 Tax Free This leading Middle East bank continues to play an increasingly dominant

and innovative role in the local and international markets, greatly expanding its loan portfolio worldwide. This is an opportunity to contribute to this

growth within a stimulating and highly rewarding environment. The main tasks will be to develop and permanently establish systems and procedures for monitoring and reviewing the quality and effectiveness of loan granting processes throughout the bank. Accounting and financial reporting, and necessary administration of credit review and documentations, form an integral part of this function.

Candidates, who should ideally be professional accountants or business graduates, with credit and banking training, must have relevant senior banking experience in credit analysis, quality control and appraisal of major loans with an international financial institution. Arabic speaking will be a distinct advantage.

Salary is negotiable and free of local tax, and benefits include guaranteed bonus, free car, housing, married or single status, medical care, life insurance, free loan facilities, 45 days holiday and paid round trip to country

BUSINESS BRIEFS Lord Delfont Expected to Acquire **Trusthouse Forte Leisure Division**

LONDON (UPI) — The entertainment entrepreneur Lord Delfont, backed by four insurance companies, is expected to take over the leisure includes for trusthouse Forte, a Trusthouse spokesman said Friday. He said the transaction, reportedly worth £43 million (\$68.8 million), might be signed next week.

Donald Durban. a Trusthouse director, said: "We think we are quite

good at hotels and catering and should concentrate on doing the things see are best at. The leisure division is a very good one. We are happy to sell it to Lord Delfont, who has been on our board for 20 years."

Lord Delfont has headed the leisure division since Trusthouse bought a stake in Thora-EMI's leisure interests in 1980.

If the deal goes through, the new company, First Leisure Corp., will include London theater and cinema interests as well as Blackpool Tower, Chichester Marina, dance halls, discos and sports [activies. It could pro-

vide a new base for Lord Delfont's brother, Lord Grade, who lost control of Associated Communications Corp. last January.

Citroen Expects Major Special Costs

PARIS (Reuters) - Citroën faces extraordinary costs of 1 bil-lion francs (\$142.85 millioo) this year, largely because of industrial disputes and production problems at its Aulnay plant, the company's chief executive, Jacques Lombard. was quoted as saying Friday. Meanwhile, state-owned Renault estimated its consolidated net loss for the first ball of 1982 at 900 million to I billion francs.

A Citroën spokesman said Mr. Lombard, in a speech Thursday, also blamed the costs on measures introduced by the Socialist government. iocluding a sborter workweek, longer holidays and

Mr. Lombard did oot predict
Citroën's 1982 results. The company, part of the Pengeot group, lost
550 millioo francs in 1981, it has had severe labor problems this year, with a dispute continuing at Aulnay. Newspapers speculated Friday that the factory, which employs 6,000, might be shut down, but the company spokesman said no decision had been made.

federal government. A Grundig spokesman said Thursday that the company is holding talks with Siemens, Bosch and Philips on an alternative to a plan announced last month under which Thomsoo-Brandt would acquire 75.5 percent of Grundig's shares. France views the proposed merger as a means of countering Japanese

Bonn Aide Neutral on Grundig Plans

BONN (Reuters) — The West German government remains neutral over a possible alternative to the planned merger of Grundig with state-owned Thomson-Brandt of France, an Economics Ministry spokesman He said Bonn regards it as a matter for the companies and not the

competition in consumer electronics.

HOESCH WERKE expects to break even or show a small pretax profit in 1982, a company spokesman said Friday. Year-earlier figures are unavailable because the company was then part of the Dutch-West German steel group Estel, which reported a 1981 loss of 696 million guilders DOME PETROLEUM LTD. said Friday that it has completed the

donesia, to British Petroleum Co. and Londoo & Scottish Marine Oil PLC for a total of 350 million Canadian dollars (\$284 millioo).

COMALCO LTD., an Australian aluminum maker 70-percent owned

BASF said Friday that it plans worldwide capital spending oext year of 1.8 billion Deutsche marks (\$735 million), largely for expanding video

are planned.

A big problem for Matsushita and other Japanese companies hoping to crack the U.S. personal computer market is software. However, there are some signs of hardware standardization developing in the personal computer field. If that trend cootinues, then Matsushita might do quite well, ana-

Matsushita Is Moving Into Computer Market

(Continued from Page 9)

againsi a problem potentially more troublesome than a cyclical slowdown. Analysis agree that high growth in Matsushita's traditional consumer electronics business will be more difficult to attain in the years ahead, especially with the end of the boom phase in sales of ideo recorders.

Matsushita is, in the words of Hiroshi Ebihara, a Tokyo management consultant, "an ultra-Japa-nese company," with a genius for what Japanese management ex-perts call the "followership" strate-

Japanese companies as a whole have employed the strategy, io one form or another, in industry after industry. Often latecomers, they have used astute marketing techniques, product differentiation and low-cost manufacturiog as the keys

to success. Matsushita has long had a reputation for such followership, though some call it simply caution. It has let other companies blaze the trail with new products. Then, once a market starts to develop, Matsushita moves in and grabs a large share. Typically, Matsushita's product line is a bit different and a bit less expensive than those

of its competitors' — just as that electrical plug was 60 years ago.

The classic example of this in recent years was Matsushita's move video recorders in the mid-1970s. It trailed Sony's Betamax into the market by nearly a year. But today Matsushita is the leading producer of video recorders us-ing the VHS format — and VHS machines represent 70 percent of the global VCR market.

Matsushita is now casting about for new growth lines to such oooconsumer fields as office automation and robotics.

It is the company's moves into the personal computer business that have probably been most closely watched by industry analysts. The potential market for Matsushita in personal computers is enormous, at least in theory. The company's worldwide marketing clout, not to meotioo its 26,500 retail shops in Japan, combined with its production capability, would seem to leave it well-positioned to capitalize on the growth in persooal computer sales.

Some analysts have even fore-cast that a decade from now Matsushita, along with International Business Machines Corp, and Nippon Electrie Co., will be a giant in

personal computers.

But Matsushita has a loog way to go. Its president, Toshihiko Yamashita, conceded: "We are oot so strong in this business."

Last November, the company introduced its first personal computer, which sells for the equivalent of about \$220. It then brought out a more powerful 16-bit model this summer, which retails for about \$320. Its Panasonic line to the United States will sooo introduce the 16-bit model in the American market, along with 40 or 50 software programs. Other cotries

lysts say, because the personal computer would then become a "commodity" item with interchaogeable software

But Matsushita has not yet impressed analysts to Japan. "Nip-pon Electric, Sharp and Sord are the names here to personal computers, not Matsushita," said Darrel E. Whitten of Bache Halsey Stuart Shields Ltd.

To come up with new products. Matsushita has increased its repearch and development spending almost 50 percent from 1980's level to an estimated 148 billion yen this year. More than 1,000 people were added to the company's research and development staff last spring, bringing the total 10 16,000.

One of Matsushita's wisest moves in the past was to become a producer, not just of finished elec-trooic products, but also of parts that could be sold to its competitors. For example, as semiconductors — instead of transistors — became the basic technology for more and more consumer electronics items, Matsushita made sure that it developed in-house produc-tion capability. With parts becom-ing more sophisticated and expensive, Massushita can save money by making them itself, and reap substantial profits by selling them

Matsushita's sales of electronic parts to outside customers alone totaled 321 billion yen last year. The same strategy is expected to pay off eventually in another area, factory automation. There are roughly 3,000 robots in Matsushita plants at present. A decade from now, the company plans to have more than 50,000 and expects other companies to move in the same direction. Thus, Matsushita began selling robots to other com-panies last year. Already, Matsushita claims about 10 percent of the

"The company is defraying the costs of developing its own ma-chine tools and robots by selling them to other people," said Mi-chael Connors, an analyst for Jar-dine Fleming Ltd. in Tokyo.

Japanese robot market.

Matsushita's sales of robotics and factory automation equipment will total about 20 billion yen this year, according to Koichi Ogawa, a senior analyst for Daiwa Securius Co. By 1987, the figure should grow to more than 100 billion yen, Mr. Ogawa estimated. "This should be a real bright spot for Matsushita." he said.

■ Video Venture With Bosch

Matsushita Electric Industrial said Friday that it will sign an agreement with Robert Bosch G.m.b.H. of West Germany within two mooths to form a joint veotute for the production of video recorders in that country, Reuters reported from Tokyo.

It said the joint veotute. Mat-sushita Bosch Video, will have capital of 500 millioo yen; Matsushita is to provide 65 percent and Bosch

the rest.

The oew company is to produce 3,000 recorders a month, starting oext February, at a plant owned by a subsidiary of Bosch. Matsusbita said the venture will be its first attempt at overseas video recorder production. It will be the third Japanese maker of video recorders in Europe, following Victor Co. of Japan and Sony Corp.

BURTON AND SPEKE

By William Harrison, 420 pp. \$17,95. St. Martin's/ Marek, 175 Fifth Ave., New York, N.Y. 10010.

Reviewed by Dennis Drabelle

THE WORD tragedy has been revised downward until it means any profound, pointless loss — the valedictorian killed by a drunken driver. One of William Harrison's achievements in this sure-handed historical novel is to remind us that tragedy has a stricter meaning that centers on the interaction between chance and the abysses in human character. The protagonists of this proper tragedy are two British explorers of Africa, Richard Francis Burtoo and John Hanning Speke.

In the annals of exploration, few colleagues have been so mismatched. The mercurial Burton was a swarthy Irish upstart, a preternaturally gifted linguist, a fine writer, a self-assured leader who knew when to browbeat a man and when to butter him up, a bear for sex. The saturaine Speke was a dyslexic blond aristocrat who read and wrote with difficulty, a crack shot, a sexually repressed Victorian, a tormented bundle of self-doubt and ambition. Ambitiousness, in fact, may have been the only significant trait the men had in common.

Like the myths of Greek tragedy, the story told in "Burtoo and Speke" is well-known. In June of 1857 the explorers set out to discover the source of the White Nile. A year later Burtoo is generally debilitated and afflicted with an ulcerated tongue. Speke pushes so without him. Speke comes upoo a great lake west of Mount Kenya, concludes that this is the source and names it Victoria. But he can muster few supporting facts upon his return, and Burton is skeptical. While he stays behind to recuperate, Speke sails for England. The agreement is that Speke won't present his finding to the Royal Geographical Society uotil Burton, the expedition's leader, rejoins him.

Four hours after reaching London, Speke goes to see Sir Roderick Mur-chison, president of the society. Not content to announce the discovery and claim it as his alone. Speke slanders Burton, implying that lassitude, rather than physical illness, kept him from sharing the burden of discovery.

Speke is lionized, the repatriated Burton all but forgotten. Though depressed, Burton is reluctant to cause a French Who's Who ruckus. Bot he writes convincing rebuttals of Speke's position. (Burtoo's candidate for the Nile's source is Lake Tanganyika, about 200 miles southwest of Victoria.) Speke leads another expedition - sans Burton - to confirm his intuition but again fails to bring back hard information.

Dr. David Livingstone, the beloved dean of African exploration, sides with Burton. Others join the attack, and Speke's kudos deflate. He feels compelled to answer Burton at one of those grand public debates the Victorians love so well, and the stage is set for the tragic climax (which I'll withhold so as oot to be a spoiler).

So much is fact - at least as reported in such standard works as Alan Moorehead's "The White Nile" and Fawn Brodie's blography of Burton. "The Devil Drives." But Speke's motivation has always been murky: Brodie wrote of him, "Of all the great explorers, oooe was more enigmatic and less given to self-revelation." Harrison's treatment of this material has it that Speke was bomosexual and strongly attracted to Burtoo. (The author may have uncovered new evidence to justify this surmise: one of his acknowledgements is to a collateral des-

"curse" - and limits his activities to lavender-light districts.

He also projects his preference onto Burton. Though one has the feeling that Burtoo tried every sexual combioation at least ooce and he did write a military report oo male brothels in India, the man was a relentless womanizer, Nonetheless, during the interview at the Royal Society, Sir Réderick-mentions the infamous report and asks, "Tell me in confidence. What do you know of his tastes?"

"Burton is a dark, dark man," Speke replies. "Take that as you want

This interpretation of Speke is planreticence and explains his obsession with Burton — even at the height of his triumph Speke's lectures were as much tirades against his former partner as re-creations of the great discovery. In his fantasies Speke is powerful enough to live an openly unorthodox life. Io reality be is devastated by selfcontempt and unable to face the man he has loved and betrayed.

Harrison's version of the Burton-Speke relationship also has an ironic intensity rarely found to confemporary fiction. As in classical tragedy, the reader is both disheartened by the characters' self-defeating actions and delivered from chaos by the fateful pattern they form. (There is even a temporal irony involved. Had Speke been born a hundred years later, he probably would bave made peace with his sexuality, hut there would have been no great blank spots on the globe left to chart.)

All that keeps "Burton and Speke" from being first-rate is its pedestrian style. Harrison, a veteran novelist and screenwriter, seldom writes a colorful sentence, and to get a sense of Africa's riotous physicality you have to turn to someone like Moorehead or Burton himself. What you won't find in Burton, though, is appreciation of the ultimate irony. He and Living-stone were off base about the Nile's source, and Speke was quite right.

Dennis Drabelle, a Washington actorney, wrote this review for The Washing-

Catches Up to Vote

PARIS - The latest red-covered edition of Who's Who in France has a distinctly pink tinge inside, reflecting the Socialist takeover of power in

Many of the 1,009 fresh names in the bible of French privilege belong to flag-bearers of the new regime in government and parliament and at the head of the nationalized industries.

Since legislators, unlike mere social climbers, get in automatically, Presideot Fraccois Mitterrand and Georges Marchais, the Communist Party leader have been included for years. They are now joined by a host of Socialist and Communist deputies and senators elected for the first time to form Mitterrand's majority. Their biographies sit alongside the more traditional Who's Who entries of the Couot of Paris, pretender to the French throne, the aristocracy and the

leaders of private industry. The new edition contains 18,842 oames. The editors estimate that 80 percent of the book has had to he revised. The editor, Jacques Le Bodo, said that entries for about 700 people cendant of Speke.) Harrison's Speke previously included because of their abhors his sexuality — be calls it his position in politics had been removed.

Japan's Farm Lobby Keeps Bar on U.S. Trade

Washington Poin Service MIKKABI, Japan — Under the Despite Mikk ABI, Japan — Under the To Continue Leurch of small, hilly farms wedged the country's Pacific coast To Continue community in continue continue continue continue control small, hilly farms wengen between the country's Pacific coast mountainous spine, cave he is lightthe twee the country's Factic coast, and its mountainous spine.

Massaki Takeshita says he is lighting a battle he cannot afford to lose against the United States.

At stake, according to Mr. Tak-paints, 38, is the heavily morr-paged, two-and-a-half-acre plot that has been in his family for three generations. Here, Mr. Takestrica raises a small herd of beef L'eattle and grows mandarin a good year, yield an income of \$15,000 and support his wife and

"If big amounts of cheap American beet and oranges are allowed in flood into Japan," Mr. Takeshina says, "my whole life will simply be destroyed."

Mr. Takeshita, who is typical of many farmers in Japan's metfiagricultural sector, was speaking of a mounting drive by ismantle barriers to imports of beef cities fruits and other farm goods that protect local interests and keep lower-priced American ing in the market here.

Satoshi Nakane, a local co-op official concedes that opening the country to more farm imports government here for 27 years, re-

Smallholders Stymie Efforts to Lift Barriers to American Beef, Oranges

death," he says. Agriculture, a sector in which Japan now enforces import curbs by quotas on 22 products, has em-erged as one of the potentially most serious issues in the tense

economic relations between the two countries. The United States, burdened with huge trade deficits, sees the quota as symbolic of the closed na-

ture of the Japanese market, which puts restraints on a broad range of imports. Washington has pressed Japan to act more quickly or face a protectionist backlash in Congress. Senior Japanese officials argue

that the American demands are hopelessly excessive because they ignore the realists of what is possi-ble within the constraints of the country's political system, where farmers wield tremendous clout. Japan's 5-million full-time farmers make up only 9 percent of the country's labor force, but are orga-nized under a powerful nationwide umbrella group that has vowed to block any moves toward trade li-

The conservative Liberal Democratic Party, which has run the

would benefit the Japanese con-sumer. "But for the Japanese tampering with the prerogatives of farmer, it's a matter of life and the agriculture lobby is politically

Reflecting those pressures, the latest round of talks on two-way farm trade nbruptly broke off in Honolulu last month after Japanese negotiators rejected a U.S. call for Tokyo to eliminate import controls on best and citate fruit controls on beef and citrus fruit beginning in 1984. Instead, the Impanese reportedly have offered to cut import duties on other commodifies, including papayas, that are of little importance to U.S.

farmers.

Only about 15 percent of Japan, a string of volcanic islands, is fit for farming. Farmers here work small holdings. Government attempts to get farmers to sell their land to open the way for bigger, more efficient farms have met with stiff resistance, while productivity has fallen off.

In Mikkabi, much of the farmers' ire is reserved for hurcaucrate Tokyo, who, the farmers complain, lack comprehensive policies for helping them in current diffi-

According to senior officials and politicians bere, it may take another decade before Tokyo can iron out the deeply rooted troubles in the country's farm sector to allow

the freer access for imports Washington now wants.

In the meantime, they suggest that tough U.S. bargaining tactics have whipped up a tempest in Jap-anese politics that may delay further the glacial pace of achieving a consensus on any public issue that pits powerful interest groups against each other in Japan's strongly consensus-oriented soci-

Fearing protectionist retaliation against Japanese industrial goods in the United States, the country's big-business establishment, a major source of financial support for the Liberal Democrats, bas publicly endorsed the U.S. call for farm

Leaders of Zenchu, the national farmers' organization, which is said to indirectly control the ma-jority of votes in the countryside, have bitterly countered that the country's industrialists, with their torrent of goods to the United States, have been the chief culprit in Japan's troubled trade relations.

The Liberal Democrats recently assed n resolution through the Diet, or parliament, strongly op-posing the freeing of trade in beef and citrus fruits.

Such public fanfare, however, sounds less convincing these days to farmers such as Mr. Takeshita, who is fearful that industry's sup-port for liberalization may soften the party's resolve 10 defend agri-

Parliament in Beijing **Adjourns After Voting** 5-Year Economic Plan

BELIING — China's parliament, the National People's Congress, ended this year's session Friday by

ended this year's session Friday by approving a five-year plan for 1981-85 designed to lay the basis for quadrupling economic output the the end of the century.

The session closed without the retirement of the de facto head of state, Marshal Ye Jianying, whom some political analysis had once thought likely to step down.

Marshal Ye, 85, and clearly very frail, is now not expected to retire

frail, is now not expected to reure until the next congress, due in May or June, when a Chinese president is to be appointed for the first time

Marshal Ye will conunue to perform many of the functions of head of state in his role as chair-

man of the congress.

The restoration of the presidency, effectively abolished by Mao in 1968 as he fought to eliminate his nvals, was one of the major changes in a new constitution brought about by the Communist Party's top leader, Deng Xiaoping, and approved by the congress last

Saturday.
Prime Minister Zhao Ziyang's long-overdue five-year plan, which provides for slow but steady growth up to 1985 to lay the foundailons for faster growth later, was the other main development at the 15-day session.

When the congress was declared closed, over a dozen attendants moved on to the stage to help the older, frailer members of the congress presidium to their feet.

With Marshal Ye supported by two nurses, an army band played the national anthem to which, for the first time in years, the words vere aetually sung.

Lefebvre Holds Talks at Vatican

The Associated Press VATICAN CITY - Arcbbishop Marcel Lefebvre, the rebel Roman Catholic traditionalist, beld talks Friday with a top Vatican official in an attempt by the two sides to overcome their differences, Vatican sources reported.

The 77-year-old archbishop's meeting with Cardinal Silvio Oddi. prefect of the Congregation for the Clergy, came three days after the Varican announced that talks started earlier in the year would re-

The French prelate was suspended from his priestly functions in 1976 by Pope Paul VI for refusing to accept changes by the Second Vatican Council in the Roman Catholic liturgy.

duced last week to replace a 1978 version drawn up under the now disgraced former prime minister, Hua Guofeng, who had inserted references to "Mao Tsetung's banner," considered unfushionable

by the present leadership.

Some potitical analysts said Marshal Ye was believed to oppose many of Mr. Deng's moderate reforms. They said he was allied closely to Mr. Hua, who was dropped from the ruling Polithuro at the 12th party congress in Sep-tember and who now rarely ap-

pears in public. Friday's meeting was the final session for the 3,500 delegates to parliament appointed five years ago under Mr. Hua.

Saudis May Weigh Ties With Russia

The Associated Press RIYADH - Crown Prince Abdullah, the second most powerful man in the Saudi hierarchy, said in an interview published Thursday that his government sees "no harm" in considering "future forms of cooperation with any other country.

A well-placed Saudi source said Prince Abdullah was "hinting at a decision to establish diplomatie relations with the Soviet Union, although not at the present time." Prince Abdullah said: "The kingdom sees no harm in considering any future forms of cooperation with any other country if it is convinced that such cooperation will serve the objectives of the Arab na-tion and the Islamic world."

The development is, as yet, no. . all the parties want an Islamic more than a superficial and measy

> lines and finances are still reg ed separately, certain steps are being taken — regular meetings of "alliance committees," the aboli-tion of party membership cards which indicate that on this occasion the various leaders are more sincere than they were in the short-lived alliances of the past.

The dispatch of the three-man commission, made up of respected religious leaders, to Kabul province in October was another example of this, and it underlines that the men in Peshawar and the Mujahidin guerrillas inside Afghani-

In Afghanistan last year most groups took little notice of what went on in Peshawar and generally cooperated with each other, even the extent of launching combined operations.

This was particularly evident in the Paghman region, 15 miles northwest of Kabul, where close collaboration had proved a clear necessity for the Mujahidin in holding out against repeated Sovi-et offensives. But despite this, field commanders bave been unwilling to accept a unified command

structure, fearing that would mean a loss of personal power. The existence of several factions ,in an area has not been a military problem so much as one between the guerrillas and the local, mostly

peasant population.

Last year near Bagram, in Parwan province, an area where factional differences have occasionally escalated to outright fighting, a weariness was apparent among the local population, symptomatic both of the insecurity the villagers felt and the demands made on their very limited re-

This fall, during a visit of almost two months in the region just south of Kabul, a similar weariness was noticeable. Zabit Halim, whom I accompanied, spoke of it.

"It is one of the economic difficulties with which we are faced," he said. "Due to the war, a lot of land is now left idle. The people in the villages are less well off. This would not be so serious if they only had to aid one party, but three or four different groups have

to be helped here, given food, may-be cigarettes, clothes." At every meeting that Mr. Halim had with village elders in the outskirts of Kabul, where his men brought up and it was apparent that an increasing bitterness was felt by the villagers about some of the demands made on them by the

This bitterness and growing weariness with the war forms an important threat to the resistance. As Mr. Halim put it: "The village fort to make Niger le forms the real base of our struggle. on the world outside. It gives it life, manpower, food, support. Without the village our struggle is lost."

It is this realization that has, after years of inaction, finally caused the rebels to act.

Cave-in of World Uranium Market Is Heavy Blow to Niger's Economy

By Denis Herbstein

utional Herald Tribune NIAMEY, Niger - The brutal collapse of the world uranium market has meant another notch pulled in on the aiready tight belt that encircles the economy of this landlocked West African republic.

Niger's austere military dictatordepends almost completely for its foreign reserves on revenues from two buge French-run mines in the Sahara. The outlook is un-

Take the figures for the latest budget. (The nation's currency is the franc of the Communauté Financière Africaine, which is equal to 2 French centimes.) The brief uranium boom peaked two years ago when Niger received 35 billion CFA (more than \$100 million) in revenues, enabling it to finance one third of the budget.

This year revenues will not reach 9 billion CFA. The domestic budget last year was 93 billion CFA. This year it is down to 81 billion CFA, a decline in real terms, given inflation of 15 percent, of at least a quarter. As a result, cash available for investment has shrunk from 26 billion CFA last year to the present 7 billion CFA.

This means that Niger, which averaged an 8-percent growth rate for the latter half of the 1970s, has timistic zero figure in the coming

Uranium-fueled prosperity is over, but whether for a decade or forever, Nigerois and French cannot be sure. But now the president, Colonel Seyni Kountché, is rally-ing his 6 million citizens in an effort to make Niger less dependent

A decade ago a devastating drought destroyed hundreds of thousands of cattle and killed an unknown number of people in the Sabelian belt that separates the Sahara from the savanna.

Two Executions

Charles Brooks

Instead of suffering electric shock and burns or gagging on poison gas, the victim of execution by injection drifts off in a trance. That is bow the state of Texas executed Charles Brooks, a murderer, and so marked

another advance in the technology of death.

The new method hardly obscures the underlying issue, which is the morality of state-sanctioned killing. Over the centuries civilized governments have tried to limit and reject it. In the United States execution had ceased altogether by the 1960s.

Its resurgence reflects the thirst of a frustrated public for vengeance against criminals. Some members of a Texas college fraternity actually showed up at the prison to cheer Mr. Brooks's execution. Politicians are swept along by the emotional tide despite their better judgment. New York's governor-elect, Mario Cuomo, who won election despite morally based opposition to the death penalty, is a notable exception.

The fever may even touch the Supreme Court. On Monday a majority of the justices turned aside Mr. Brooks's final appeals in a way that suggests they are imparient with taking the blame for blocking the door to the death house. A lower court did not give the Brooks case the full review the law requires. The Supreme Court, for all its professed concern for detail in capital cases and despite three elear dissents, ignored that failure.

To a lot of people the death penalty pre-

sents a contradiction. They may favor it in the abstract or when they talk to poll-takers, but the brutal reality repels most people close enough to carry it out. Judges, penal officials and legislators do not like to think of themselves as killers. Neither do most citizens. So they look for ways to purify an indecent duty. Society favored the electric chair and the gas chamber as cleaner and more dependable than the noose. Lethal injection is another

way to make the task look more humane. The result, however, is the same. That is why the American Medical Association opposes participation by physicians in lethal drug executions. In Idaho the legislature had to reauthorize the firing squad when no doc-tors would agree to perform lethal injections. No such inhibition troubled the Texas prison doctor, who drew a wondrously thin ethical line. He inspected Mr. Brooks's veins and helped with preparations but left it to medi-

cal technicians to administer the lethal doses, Sueb temporizing only underlines the real point: Morality lies in resisting irrational demands for death, not in drugs that anesthetize consciences as well as the condemned.

-THE NEW YORK TIMES.

Norman Mayer .

It seems, after all, that there were no explosives in the van. Now that the crisis is over we learn that he was a 66-year-old man, somewhat fuzzy-minded, obsessed by a cause. Perhaps he intended to end the confrontation when he got in the van and attempted to drive off Wednesday evening. But all this of

course is after-the-fact speculation.

When Norman Mayer drove up to the Washington Monument Wednesday morning and announced to the world that he had 1,000 pounds of explosives in his van and was quite ready to blow up everything within a quarter mile, the threat had to be taken seriously. People in the city are potential victims of terrorists every day. We are now searched upon entering federal buildings that we used to think of as our own property. Washington's streets are fair game for protesters and are vulnerable to rioters. We hear of terrorist bombs in Paris, Rome and Belfast, and we don't want it to bappen in Washington. We

expect our law enforcement agencies to seek to protect us, and on Wednesday they did. Within hours of the arrival of the van ar the monument, police, with the aid of other city and federal agencies, had determined its ownership, the identity of the driver and a good deal about his background. Explosives experts accurately identified the device Mr. Mayer was holding and warned that it could in fact be used to activate dynamite. Psychologists and sharpshooters were dispatched to the scene, and for 10 hours a restrained and conciliatory approach was used in dealing with the man. Officials managed to reroute the evening rush hour and evacuate buildings in the affected area without in either case causing panie or undue confusion. It is beside the point that the threatener was well-spoken or had a reputation for advocating non-violence and nuclear disarmament. What mattered then was the simple fact that be threatened to perform a crime that endangered lives and that he had given every indi-cation that he would be able to do so.

No matter what the reason was for Mr. Mayer's decision to leave the scene, the determination not to allow him to do so was right. A mobile bomb cruising through the city streets is as dangerous to Anacostia and Glover Park as it is to the White House. The least dangerous place in which to stop it was the already cleared monument grounds. It is a great misfortune when someone who is perhaps unbalanced and in fact unarmed is killed by the police, But law enforcement officials did what had to be done at the time, as they had throughout the day.

-THE WASHINGTON POST.

Other Opinion

Dangerous Nuclear Planners

The U.S. nuclear arsenal hasn't changed much in quantity and quality for a decade or so. But great changes are planned over the next 10 years. The deployment of new weap-ons is changing nuclear policies from nuclear deterrence based on mutual assured destruction to nuclear-war fighting.

The problem is that the nuclear planners

are carried away by the very complexity of a nuclear war can actually be planned, controlled, fought and won in the way that the computer games foretell. The danger is that the political leaders, Soviet and American, who have no time to delve into the complexities of strategie nuclear planning, [will be] taken in by the planners, and will be persuaded that nuclear war is thinkable. - Frank Barnaby in The Guardian.

Liberties in the East Bloc

The Polish government has announced the release of another 32 internees, and there are now reports that it is on the verge of lifting martial law. It is of course always gratifying to see the release of political prisoners, and the lifting of martial law would certainly be a step in the right direction. But nobody should jump to the conclusion that these actions necessarily equal a genuine change in policy.

When a people have been subjected to the kind of repressive measures that have charac-terized the martial law regime in Poland, there is a natural tendency to lonk for hope in even the smallest gestures. It is easy to feel a sense of relief. What is difficult, especially for cutsiders, is to keep in mind the degree of repression that still exists. A few more Poles are free, or are about to be freed, but the Poles as a people emphatically are not.

— Voice of America (Washington).

[At the 1975 Helsinki conference] Western diplomats gave the Soviets not immutability but "inviolability" — in other words, an un-dertaking that nobody on the Western side would use force to restore territories to their

rightful owners. What price did the Soviets pay? The theoretical price lay in the so-called third basket, concerning buman rights. The Soviets solemnly agreed to respect human rights, to allow free travel to and from their territory and to distribute Western publica-tions freely. What actually happened was that the KGB stepped up its persecution of intellectual and political dissenters, and that the Kremlin, as before, banned all Western books and periodicals of which it disappervised parties on travels to the West. So the Final Act simply remained a dead letter inside the Soviet Union.

If the United States wants to belp those who call for change inside the Soviet empire, we should simply issue a strictly nonviolent ultimatum: Either provide immediate and continuing proof that the human rights provi-sions of Helsinki are being observed, or the Final Act will be repudiated by the Western side. Specifically, the Western powers should denounce the passages in the Final Act relating to the postwar frontiers of Europe. We should propose instead the rapid convening of a general peace conference, to wrap up the loose ends left by Soviet annexations, Potsdam, Yalta, transfers of population, etc.

— Brian Crozier in National Review.

The 'Bulgarian Connection'

Why has the "Bulgarian connection" — that is to say, the Soviet connection — reassumed sueb importance now, after 18 months of police investigation? Is the arrival at the head of the Soviet Communist Party of Yuri Andropov, who was KGB boss at the time of the lattempted assassination of Pope John Paul II], to be regarded as altogether irrele-vant to the case? If there is indeed a "campaign," as Sofia maintains, are all its instigators to he sought where Sofia points — in "Western propaganda offices"? At a time when an apparent power struggle seems to be preventing the naming of a head of state in Moscow, these may not be idle questions.

- Le Monde (Paris)

DEC. 11: FROM OUR PAGES 75 AND 50 YEARS AGO

1907: Nobel Prize to Kipling

STOCKHOLM - The distribution of the Nobel Prizes was held this afternoon at the Academy of Sciences. Owing to the death of King Oscar, there was no public ceremony. The literature prize was awarded to Mr. Rudyard Kipling. This year the prizes amount to £7,620 each. The London Tribune comments: "Who will call in question the right of the author of 'The Jungle Book' to such a proud position? It is true that some of those who were the first to hail the appearance of Mr. Kipling's star above the horizon may be heard grumbling that his development, as it grows more mature, grows less interesting. Probably it is they, not Mr. Kipling, who are suffering from the disease of middle age."

1932: Auto Plants More Active

DETROIT - While the automobile industry is showing more activity than since June, with a production surpassing December for tast year, new optimism loomed when four important companies announced that a total of about 12,000 men will return to work immediately. To cope with intensified production for 1933, the Hudson Motor Co. recalled 4,200 former employees. Cadillac is rehiring employees as fast as production warrants and expects that 3,250 idle men will be back at the plant before Jan. I. General Motors and Chrysler report virtual normalcy in their production and a high point for several months. The total production of General Motors this year will be about 500,000 cars.

JOHN HAY WHITNEY (1904-1982), Charmon

NATO Straggles Up to a Crossroads

BRUSSELS — There is a swirl of crosscurrents among the ailies these days, so mixed that you can take your choice and place your bel it is as reasonable to argue that the Atlantic allies are beginning at last to pull together as it is to say

that things have never been worse.

The vote in the U.S. House of Representatives against the MX is an encouraging sign for some that the United States is getting realistic again, prepared to set priorities and make rational defeated and the set of the fense judgments. That is my view.

For others it provokes a fear that European publics will reject new American missiles on their territory on the grounds that Americans also op-

pose new missiles in their own neighborhood.

In any case, nobody on this side of the Allantic has accepted President Reagan's new name for MX — "Peacekeeper." This is too embarrassing even to satirize, as though it were a deliberately sly attempt to remind us that George Orwell's 1984 is not far off.

As usual the French are out of step. They are having a big scandal at home over what they call American-style leaks from military chiefs questioning the government's new defense policy. It is virtually all nuclear and will gravely undermine conventional forces, in the chiefs' view. Foreign Minister Claude Cheysson is candid about it. "All is deterrence," he says. France does

and "we haven't the means for conventional deterrence, so we must rely on nuclear arms."

Therefore, the Socialist-Communist French government openly urges other NATO members to deploy Euro-missiles if the Soviets will not ne-

gotiate away their SS-20s. It deplores American

not want to prevail in war but to prevent war,

By Flora Lewis

opposition calls for an alliance policy of "no first use" and the call by the NATO commander. Gen. Bernard Rogers, for "no early first use."

Just when everybody else is looking for a way to move tactical atomic weapons back from the front to diminish the risk of a conflict going nuclear quickly, the French are on the tack of thinking how to move theirs forward.

"We don't want to be a nuclear Switzerland,"
Mr. Cheysson said, an oblique answer to the
question of whether new Franco-German strategie talks will focus on how the French arms aight be fired from West German soil.

This, too, is logical. There has been an aboutface in traditional French fears about Germany. Mr. Cheysson confirmed that Paris is no longer worried about German militarism but about German neutralism and pacifism.

That is only a change of means, not goals. The real, abiding issue remains whether France's se-curity border will stay on the East German frontier or be moved back to the Rhine.

As a result of all this, NATO insiders say that

the French have never been so cooperative with the alliance in practical military ways. No friction there although they still have not taken the crucial step of logistics and transit agree-ments that would give needed territorial depth

for planning conventional defence.
But there are trends in the Reagan administration that worry all the allies, not only France. Obvious budget problems are forcing the Penta-gon to think about rrimming spending plans. One line, the same that insists on MX, is to cut back

manpower so as to maintain funds for space weapons and a third generation of nuclear arms.

"We want to move war out there, away from where the people are," is the way a senior official explained it to me. That is not deterrence thinking, it is war thinking. It implies an ultimate crumbling of the Atlantic alliance rather than a careful, persistent search to maintain neace in careful, persistent search to maintain peace in

partnership with Europe.

Europeans are a good deal more aware than
most Americans of the economic and social context of Western security. Secretary of State George P. Shultz has already had a salutary elfect on bringing Washington to recognize the inescapable linkage. He played a major role in maneuvering the Reagan administration out of its confrontation with allies over the Soviet pipeline. Now he is combining his visit to Brussels for the annual NATO meeting with a U.S.-Common Market meeting, to show that economic, political and military issues earnot be isolated.

Then Secretary of State Alexander M. Haig Jr. did the same last year, but the big difference is that for the first time a treasury secretary. Don-ald Regan, is also participating. Mr. Regan's re-cent offinand remark about new monetary agree-ments has the allies quite excited. It goes to the crux of the problem and appears to be a funda-mental shift in the administration's approach.

If a plan develops, and nothing has yet been worked out, it will be a sign of emerging teamwork in Washington that will help restore the sense of NATO as a security team, not just a missile maker. The alliance is straggling up to a crossroads, but it is not too late for resolve.

The New York Tunes.

Why Sell Grain to Russia?

By Rein Taagepera

I RVINE, California — Ir is exhila-rating to spot coyotes silently roaming in the evening dusk, in the grassy hills, But it is disturbing to have to yield them the right of way when biking to work. We delude our-selves when we think that if we feed them we will tame them. Instead they merely come to depend on the food. Eliminate it and they will not go away or try to ingratiate themselves by wagging their tails. They will go after your cats, dogs, children.

Humans are no different. The American emergency plan to seize Saudi Arabian oil fields in the event of an oil embargo made waves a few years ago. The waves are gone, but not the plans, Americans have come to consider Arab oil as something they are entitled to, simply because they are badly dependent on it. Have someone turn off the pipeline, and the reaction is to send the Marines to secure "our" oil supply, even though a successful invasion would destroy the source.

America does not try to satisfy itself with domestic supplies and con-servation. Nor does it ingratiate itself with the oil suppliers. Selling oil does not give the Sandis influence. Money, yes, in inflationary dollars weakened hy excessive oil purchases. Power, no especially not the power to threaten with an oil embargo. The Saudis have been feeding the coyotes too much for too long, and it is dangerous for both sides.

Soviet rulers are no different. Make them dependent on American grain and they will come to consider it their hay was to be gathered from every due. American influence will actually small patch of wild meadow. By De-

I was born there in capitalist Po-

decrease; The more they depend on this grain, the less Washington can risk agitating them with embargo threats. If the alternative were widespread starvation in the Soviet Un-ion, they would be sorely tempted to seize "their" comfields, or whatever would be left of them after a "rapid

deployment" of nuclear force, Meanwhile, grain trade helps the United States make money, or what-ever one calls the fOUs tendered by a deeply indebted empire. Midwestern votes are about all that one can buy with such funny money.

Soviet overdependence on American grain has already occurred, as President Carter's embargo made clear. That was an effort of limited scope, although for political reasons both the Soviets and the American farmers have portrayed it as a total embargo. Long-term contracts for de-livery of 8 million tous per year were fulfilled. The embargo cut off only about half of what the Soviets wanted to buy in the United States.

The Soviets put up a brave front, and the American farming interests declared the embargo a failure. But the Soviet provincial press told a different story. I was regularly reading a daily newspaper from Estonia, a republic annexed by Stalin, First, farmers were told to feed the cows ground leaves and fir needles. In summer,

The Socialist Greek premier, An-

dreas Papandreou, forgetting his own

European continent.

improve" the situation that emerged

Western statesmen could never

Honecker, the East German lea

cember 1980, tree branches were declared to be cattle feed.

The Estonian paper warned against slaughtering the starving cattle: They would yield little meat, and breeding stock would be hard to restore.

Remarkably, this was how the partial embargo affected the most highly developed agricultural region in the Soviet Union. This was overdependence, even though the Soviets sup-posedly simply shifted to buying Ar-gentina's grain. Tell that to cows munching on birch tree branches and evergreen needles. Make the embargo total, and you can tell the Argentina story to branch-chewing people, too. Recently, Soviet grain buyers have started shopping for wheat for people instead of corn for cattle.

President Reagan talks tough about the Soviet Union and wields a tom in Central America, where many people see only desperate peasants. He lights the Soviets by slugging it out with the West European govern-ments over a gas pipeline. He fights by denouncing arms freeze propo-nents, who fail to see the need for triple overkill. But he is quiet about

1982 as Pétain was French in 1940.

By Leopold Unger

Afghanistan, he pays the Polish junta's debts for them if need be - and he lifts the partial grain embargo.

Indeed, the president has offered to triple American grain deliveries to

the Soviet Union to 23 million tons. If the Soviets were to accept this offer, "a dangerous position of dependency," to use words that Mr. Reagan applied to the gax pipeline, would be created — dependency of American farmers on Soviet purchases financed by U.S. bank loans.

On the Soviet side, grain injections would be needed ever more frequently, in ever larger doses. And woe to the grain peddler who suddenly de-cided to cut down on delivery.

Foreign grain dependence is not a solution to the internal problems of the Soviet Union. Nor is trade a deterrent to war. The West should know better than to feed the coyotes in hopes of taming them.

The writer is o professor of social science at the University of California in Irvine and co-author of "The Baltic States: Years of Dependence 1940-1980," to be published by the University of California Press.

Blood in

The Water

By Philip Geyelin

WASHINGTON — There is an ill comen in like way a lame duck Congress has turned on Ronald Reagan in the conduct of diplomacy, an area where a president needs the greatest freedom of operation.

Ignoring a high-powered appeal, the House voted on Tuesday against production of the MX missile and in

the process confounded the presi-

The Stale Department wrole what

Senator Charles Percy, the Foreign

Relations Committee chairman, called a "beautiful" appeal for a lid

on U.S. aid to Israel as an imperative for the president's Middle East peace efforts, but Congress doesn't care.

Over strenuous objections from the

administration, new trade protection

measures seem almost certain to sweep through Congress, carrying with them the threat of full-scale international trade warfare.

Petry vendetas continue against

presidential appointees for critical

State Department posts.
You don't have to be on the presi-

dent's side of any of these issues to be concerned. You have only to be inter-

ested in reasonably orderly conduct of the business of national security.

That a lame duck session should be kicking the stuffing out of whatever was left of the Reagan myth says something unsettling about what to expect in the final two years of the Reagan first term. The president will be confronting a Congress that reflects last month's vote of sagging confidence in the Reagan presidency.

confidence in the Reagan presidency.

The Rengan myth was that the an-tediturian arithmetic of the Electoral College had somehow converted a

wafer-thin popular majority for Ronald Reagan into a "landslide."

Republican gains in Congress sup-posedly presaged a political revolu-tion of Rooseveltian proportions. The conservative wave of the future would carry Republicans into control

of both houses of Congress this year.

The true conservative faith, so cruelly denied a proper hearing and a fair test for so long, would now rule.

The myth was badly battered in November. The conventional belief was that it might be buried for good in the new Congress, Instead the burial has already begun at the hands of Congress that was said to be put of

a Congress that was said to be part of

the Reagan "landslide." November's

survivors, and presumably lame ducks as well, seem to be reading the same message: Ronald Reagan, how-ever beloved, can be pushed around

with a certain impunity.

Of all recent Presidents, Lyndon

Johnson would be the one most likely

to feel in his fingertips the peril that

this defiant, if not quite mutinous, mind set in Congress poses to any president. He was too much the pragmatist to be bemused by myth. He understood the contagion of defeat—

the congressional chemistry, once the

formula has been established on one

issue, that somehow weakens a presi-

dent on a whole range of issues.

Meeting with his aides and advisers

early in his first full term, Mr. John-

son spelled out a philosophy that the

Reagan crowd might well ponder. He

he bad no illusions that this gave him

some broad "mandate," He cited Woodrow Wilson's ill-fated League

LETTERS TO THE EDITOR

America the Scapegoat

Regarding "Remember, Societies Have o Threshold of Sanity" by Plora Lewis (1HT, Nov. 24): We agree that there are similarities

ween the Europe of today and that of the 1930s. Yet we do not share the view that there is a lack of political radicalism and scapegoating. In fact we see in the growing anti-American-ism an alarming tendency for Europeans to blame all of their problems on America, rather as Hitler blamed the Jews, to the neglect of facing and solving painful realities here.
Even the "peace movement,"

which on the surface can appear humane and constructive, has the qualities not of individual ethical concern but of mass propaganda, molded by political zealots into a

one-sided campaign against America.
It is sad that Flora Lewis falls into the trap of calling President Reagan's "crusade for democracy" dangerous. It is an attempt to correct the onesidedness of the mass propaganda efforts in Europe. She fails to mention the nde of anti-Americanism which

ARTS/LEISURE

et, the expert then dug up a key reference in a letter written by Jean du Bellay, who was French ambassador to the English court

that they may wish to give" and the fact that Jacques Colin is "in

charge of making Bibles for him-self and for me." Colin was a humanist scholar and minor au-

thor who specialized in classical

Anne Boleyn's little French

psalter qualifies as a Bible and is

written in a so-called humanistie script. It was elearly produced in the circle of Jacques Colin. On Aug. 20, 1530, du Bellay was back

in Loodon and, de Hamel convinc-ingly suggests, "it seems not im-probable that he gave her this manuscript." And that brings de Hamel to the heart of the matter.

The psalter belongs to the first

wave of translations from the He-

brew into Western European ver-

nacular languages — in this case French — of Old Testament texts.

It reached Anne shortly after she

had declared herself a Lutheran in

the winter of 1528, and is, in de

Hamel's words, "almost certainly the first Protestant translation of

the Bible to reach the English court." Within five years William

Tyndale had presented Anne Boleyn with the illuminated dedi-

catioo copy of the first official

translation of the New Testament

into English. Anne commanded

Thomas Cromwell to assist an Antwerp merchant who had lost

his license to trade with England

for having participated in the printing of Tyndale's translation. In short, de Hamel reminds us, she

was the first royal patron of the

ume and about the only reason, if hardly a convincing one, for ca-tegorizing the booklet as a work of

Nor did the nature of the manuscript lend itself to much discus-sion. Titled "Le Livre des Psaulmes de David traduictes selon la pure verite Hebraique, Avec les tiltres et arguments sus chascune Psaulme," it is obviously a French rendering of David's psalms, almost certainly translated directly from the He-brew version of the Old Testa-

But to stop there, as the French cataloger did in 1976, was to miss the point. As a work of art, the chubby Renaissance putti that hold up the escutcheons have a modest charm at best and the illu-

minated pages are mildly pretty, as are tens of thousands of that period. Without the owner's name and all that is behind it, the going price of such a manuscript today would be well under £5,000.

What makes the manuscript so destrable is its association with a character crucial to English history and more generally to the history of Protestantism. It is a symbol loaded with emotional connotations and these de Hamel pot inin perspective in one of the most briliant pieces of scholarly writing ever printed in a sale catalog.

The Sotheby's expert first pointed out that the manuscript Writ-ten and illuminated for Anne Boleyn, Queen of England and Mother of Elizabeth the First" is

the courtly Venetian, who sent the

earl a progress report oo the por-

the only surviving manuscript certainly made for her — as is estab-lished by the coat of arms.

He then proceeded in show that the volume was executed during the crucial three-year period in which Henry declared his love for Anne and disclosed his intection to make her queen while attempting in divorce Catherine of Aragon, a proceeding de Hamel re-minds his readers, "which directly lead to the break hetween England and the Church of Rome." Anne's arms date the psalter after Dec. 8. 1529, when her father was created earl of Ormond, and before Sept. 1, 1532, when Anne was made warchioness of Pembroke.

ambassador to the English court from 1527 and was sent in January 1530 to France by Cardinal Wolsey to promote his possible election as pope. In the letter addressed to Anne de Montmorency and dated April 15, 1530, du Belley thentions "La matière du divorce," his "continual presence with the Kiog and Madame jie. Anne Boleyn] to take any orders that they may wish to give" and Candice Bergen as Margaret Bourke-White and Ben Kingsley in "Gandhi,"

Gandhi' Is Amazingly Authentic

By Vincent Canby New York Times Service

NEW YORK — True greatness cannot be hidden behind mere ordinariness. Some subjects are so pervasively great that oo film, given a certain level of intelligence on the part of the people who make it, can fail to catch something of the essence.

Such a subject is Mohandas K. Gandhi (1869-1948), the Indian political leader who used nonviolent resistance to win the Indian subcononent's freedom from the British Empire, and who lived to see that dream split in the partition of India and Pakistan.

On independence day in August 1947, when someone used the word "congratulations," Gandhi is reported to have said that condolences would be more in order. Six months later, Gandhi, who was born a Hindu but who preached the brotherhood of men under one God, was assassinated in Delhi by a Hindu fanatic. His is one of the great stories of modern times.

"Gandhi," produced and directed by Richard Attenborough, is a big, amazingly authentic-looking movie, very sincere and aware of its reponsibilities in the panoramic manner of a giant post office mu-

The film follows Gandhi from his days as a young lawyer in South Africa, through the evolution of his political activism and asceticism, until his death at the

"Gandhi" is most effective when it is being most plain and direct, like Gandhi himself. In Ben Kingsley, the young Anglo-Indian actor who plays the title role, the film also has a splendid performer who discovers the humor, the frank-oess, the quickness of mind that make the film far more moving than you might think possible.

Kingsley, a member of Londoo's Royal Shakespeare Company, looks startlingly like Gandhi. But this is no waxworks impersona- his wife when she haughtily refuses

tion. It's a lively, searching per-formance that holds the film together as it attempts to cover near-ly half a century of private and public rurmoil.

Neither Attenborough nor John Briley, who wrote the screenplay. are particularly adventurous filmmakers. Yet in some ways their almost obsessively middlebrow ap-proach — their fondness for the gestures of conventional hiograph-ical cinema — seems self-effacing in a fashion suitable to the subject.

"Gandhi" is least effective when it is dealing with historical events and personages, especially British personages, who are portrayed by such as John Gielgud, Edward Fox, John Mills, Trevor Howard and Michael Hordern. Some of them come very close to being cartoons, the sort of Englishmen who are always identified by having ei-ther a teacup or a whisky glass in hand. The people who play Lord Mountbatten, India's last viceroy, and Lady Mountbatten look remarkably lifelike but sort of

Somewhat better are the Indian actors who play Pandit Nehru (Roshan Seth), Mohammed Ali Jinnah (Alyque Padamsee) and Gandhi's wife, Kasturba (Rohini Hattangady). Athol Fugard, the South African playwright, has one brief, effective scene as General

lan Charleson of "Chariots of Fire" has a small part as one of Gandhi's early English supporters, and Martin Sheen turns up from time to time as an American newspaper reporter. Candice Bergen is on hand at the end as Margaret Bourke-White, the Life magazine photographer.

Though "Gandhi" is loog more than three hours - it is full of scenes that catch the emotions by surprise. Among them are the. funny, bitter sequence in which Gandhi is booted out of his firstclass railroad seat in South Africa, a suddenly angry encounter with

to clean the latrines at an ashram and a scene in which Gandhi basks in the adoration of Margaret Bourke-White and threatens to

teach her how to spin.

The film portrays the political events from 1915 until independence in broad, you-are-there style, sometimes with real dramatic impact, as in the protests over the government's salt monopoly, but

sometimes perfunctorily.

Considering its length. "Gandhi" should probably be allowed its small share of silly lines. Gan-dhi: "Who's that fellow?" Friend: Young Nehru. He may amount to something some day." These are small lapses but they shouldn't happen in a film project that was undertaken — as this one was by Attenborough — as a special mis-

sion.

Of more overall importance is the possibility that the film will bring Gandhi to the attention of a lot of people around the world for the first ome, not as a s. int hut as a self-searching, sometimes fallible burnan being with a sense of humor as well as of history. "I have friends," he says to Margaret Bourke-White at one point, "who are always telling me how much it costs in keep me in poverty."

husband, Thomas Howard, Earl of Arundel, one of the greatest of Eu-

trait, adding a note on Rubens's most talented pupil, Anthony Van Dyck — "Van Dyck is still with Rubens and his works are coming to be scarcely less highly esteemed then those of his master." At this time Van Dyck, who had been apprenticed to the painter Van Balen at the age of 10, had already been enrolled as a master

painter in the Guild of St. Luke in Antwerp, and had for more than two years maintained his own studio with two assistants, was just 21 years old. It is not therefore surprising that when he came to London in 1620 to negotiate some artistic husiness for Rubens, Arundel missioned the young Dyck to paint his portrait.

This portrait, Rubensesque in its grandeur, and still showing the master's influence, opens a mag-nificent loan exhibition of Van Dyck's portraits at the National Portrait Gallery.

Van Dyck stayed in England only a few months on this first visit, and with Arundel opening doors which would otherwise have remained firmly closed, went off to Italy, painting portraits in differ-ent cities, especially Genoa, where be found a sequence of princely

patrons. By 1627 he was back in Antwerp. But by 1632, finding that Antwerp was oo longer big enough to contain both Rubens and himself, he was persuaded to settle in London, the more so as he shared a passioo for the art of Titian (of whose work he had 19 examples in his own collection) with the Eng-lish king, Charles I, who became

his principal patron.
Indeed, oo soooer bad Van Dyck arrived in London, than he was knighted, appointed "Princi-pal Painter in Ordinary to Their Majesties," and given a house and studio on the Thames at Blackfri-

Of the 87 drawings and paintings with which the National Portrait Gallery inaugurates its new exhibioon rooms, oo less than 17 are of the king and queen, their children, and kin; and many of the others are of the Carolingian courtiers and their ladies. Of the royal portraits, perhaps the most en-chanting are those of the children of King Charles and Queen Henrietta Maria, ootably the 1637 group portrait of "The Five Eldest Children of Charles I."

Van Dyck - "restless neurotic, difficult, introspective, melan-choly," as he has been described seems to have had an instant em-pathy with children. He has grouped the five in a semicircle. with Charles, Prince of Wales (afterward Charles II) in the center, his left hand on the head of a huge mastiff. To the prince's right are his sister Mary, the princess royal, and his brother James. Duke of York, who being hut 3 years old, wears as was the Stuart custom for small boys, a satin petticoat. To the prince's left are his younger sisters. Princess Elizabeth nursing the

short-lived baby, Princess Anne. There were some who accused Van Dyck of flattering his sitters. This is not so; but as one of his contemporaries observed: "He took his time to draw a face when it had its best looks on." Not only did he portray women at their best, (and lovingly, their gowns, as befit-ted the son of a silk-merchant father and a mother celebrated for her skills as an embroideress) but men also, as in his noble portrayal men also, as in his noble portrayal of Thomas Wentworth, first Earl of Strafford. This great full-length composition, Strafford standing in armor, his right hand resting on the head of his "bigg white irish dogg" (an Irish wollhound), is founded on that of Titian's "Portrait of Charles V," now in the Prado in Madrid, but in the 1630s in London

As do so many of the portraits in this exhibition, this one of Strafford demonstrates what the critichistorian de Piles noted in his "Arte of Paintinge" (1706): "His Performances . . . carry with them a Great Character of Spirit, Nobleness, Grace and Truth, inso-

Despite Woes, La Scala Premiere Is Still Memorable Musical Event

By William Weaver

Detail from "Five Eldest Children of Charles L"

ional Herald Tribune II.AN — Television crews, news photographers, society reporters, critics domestic and foreign:

The inauguration of the season at La Scala this week was a gala event. The audience included President Sandro Pertini, former Prime Minister Giovanni Spadolini, numerous other political personalities, a scattering of stars, and — in the top gallery — the often unruly loggiomsti, always ready to express, with whistling and booing and shushing, their disapproval

of what is happening on stage. From that point of view, the Scala's artistic direction must have felt safe. For the season's opening opra. Verdi's youthful "Ernani," they had a brilliant conductor, Riccardo Muti, mternationally acclaimed and particularly as a Verdian, and they had assembled a stellar cast: Placido Domingo in the title role, Mirela Freni, the baritone Renato Bruson, and the bass Nicolai Ghiaurov, all artists who have often been cheered in the Milan house. Though Luca Ronconi is a controversial director, his work is also well known

here and has been highly praised on occasion. But reputations were not enough to satisfy the boisterous galleryites — or the small percentage of them that feel called upon to demonstrate — and the exeming got off to a rocky start. Both Domingo and Freni were visibly (and audibly) nervous. The tenor lorgot a few words of his first cabaletta, and Freni distance in the state of the start o less than full justice to the aria "Ernani involami." In the next act, Bruson had to struggle with a frog in his float and his voice cracked during his first big aria, "Vieni meco." At each mishap, the self-appointed critics were implacable, protesting at every attempted ap-

Soon, however, the artists settled down, and gave admirable performances. Frem and Domingo were lytical and moving in their second-act duet. Bruson delivered his grand aria "O sommo Carlo" with anthority and musicality. Ghiaurov, whose vocal estate is actually, the least secure of all the soloists involved, administered his voice intelligently and went through the performance unscathed. The last act trio — Domingo, Frezi, Ghiaurov - was, as it should be, intense

Muti has a cool head, and he guided the performis one of his finest achievements, and once the opening-night nerves have calmed down, the whole interpretation should be close to unforgettable. He took the overture with slow, romantic elegance. The arias, too, were not rushed, but allowed to unfold at their proper pace. But he also had plenty of fire when It was wanted; the choruses, in particular, blazed up on occasion with Iberian heat. At other moments, such as the beginning of the last act, the accent was

light, almost whispered. He, chorus, and soloists were all hampered by Ronconi's perverse and frequently silly staging. In each of enough to listen to some music.

7-5 K = 1

his productions, Ronconi likes to have a recurrent visual theme. In "Doo Carlos" it was a tomb, which stood out even in the garden scene. In "Ernani," it is a kind of conversation pit in the center of the stage, usually occupied by the chorus, which was thus visible from the waist up. The principals also had to walk through it frequently: A character would enter at stage left, take a few steps, half-disappear from view, then emerge at stage right to join another character

The final act - so effective in Piave's libretto and in Verdi's music — went for nothing dramatically. Elvira and Ernani were married, apparently, during Carnival, so the chorus was masked. Silva's menacing, mute appearance at the beginning of the act was elimmated: he was replaced by a large, Punchinello figure. Earlier, Ronconi achieved his worst when he had Freni carried out on a teetering platform by a bunch of supers, like a Madonna in an Easter procession. The audience, understandably, tittered, and all this, during Bruson's aria, increased the baritone's problems.

Ezio Frigerio's sets were, in themselves, handsome (apart from the conversation pit), though sometimes excessively prominent: A Baroque altar in the last scene helped destroy the Romantie atmosphere. There were also overelaborate stage machines. In Act 2, when Ernani has to be hidden, a large equestrian statue is rolled on stage and the tenor conceals himself in the pedestal. Franca Squarciapino designed lovely costumes, though they seemed to belong to several different operas (Domingo was dressed as if for "Werther" most of the time). There were even some Spanish dancers in the last act who might have strolled in from a 1920s palais de tango: The most damaging thing about Ronconi's nonsense is that it will be televised, and thousands of people who have never seen Verdi's "Ernani" will think this is the way it's done. It isn't.

La Scala is in trouble. Last season was marked by disasters, miscalculations, a reduction of activity (only eight operas were presented, for a total of 60 performances), and — a national complaint — waste of money. An elaborate production of Berlioz's "Les Troyens" was mounted, then given only a few times. It wasn't just the galleryites who complained; the subscribers, the loyal core of the theater's audience, were up in arms. Claudio Abbado, though still listed as the Scala orchestra's conductor, will appear in the opera house this year only to conduct a revival of last year's "Lohengrin," which will also he the only time Giorgio Strehler's came appears in this year's programs.

For the rest, the season just opened looks promis-

ing, at least on paper. The program includes some rarities (operas by Gluck, Schoenberg, Dargomizhsky) and some favorites (a "Lucia" with Luciano Pavarotti and the promising young Luciana Serra). Now: if the management can keep its promises, perhaps even the complainants of the gallery will stop yelling long

much that one may say of him, that excepting Titian only, Van Dyck surpasses all the Painters that went before him, or have come after him, in Portraits." "Van Dyck in England," National Portrait Gallery, St. Martin's Place, London WC2, 10 March 20. Glamour Furs

«How to buy wine without getting ripped off!»

fascinating chapters in Jon Winroth's wine book published by the Herald Tribune

This highly informative book is worth having for this chapter alone! But there's much, much more. Tips, tales and revealing information on wine buying, wine tasting, wine vocabulary and wine snobbery. In fact, it's a wholly new revelation of the wine world. A book you'll read and refer to for years to come and one that will increase your enjoyment and expression increase your enjoyment and expertise.

A super gift idea as well.

A publication from the book division of the Herald-ree Tribune

Wine as you like it

ECONOMIC SCENE

By LEONARD STLK

n Structural Unemployment and the 'Inflation Threshold'

TEW YORK — With 12 million Americans out of work — 10.8 Percent of the labor force — national economic policy is focusing irreasingly on the causes and cures of unemployment.

Martin S. Feldstein, chairman of the President's Council of Economic

dvisers, has contended that 30 to 40 percent of the unemployment rate w is "cyclical" and the remainder "structural." He says five million of a total is due to cyclical causes — the back-to-back recessions of 1979-

Structural unemployment presumably covers everything else -- resultig from one's being the wrong age, sex or minority status and lacking hieration, skills or job experience. It may also result from a so-called edining industry, such as steel, or from an individual's voluntary deci-on to quit a job and look for a new one. The structurally unemployed

Some economists see

the analysis on which

the Feldstein approach

is based as too simple.

www.number about seven million. Mr. Feldstein recently said at a news conference that he did not regard

Mr. Feldstein recently said at a ne Mr. reldstein recently said at a ne Mr. reldstein recently said at a ne Mr. reldstein response ared the idea of an "inflation meshold" level of unemployment, the unemployment rate were and below that threshold level, he id, the rate of inflation would be-

in to increase.
But he added that the relation-

hip between unemployment and history was more complicated than that. At any given level of unemployment, he said, a drop in the unemployment rate tended to put upland pressure on the rate of inflation. Still, he said, the level of unemployment rate tended to put upland pressure on the rate of inflation. loyment needed to be looked at as well as changes in its rate. And for he next few years, he predicted, the rate of inflation will continue to reline because the persistently high level of unemployment will arweigh the effect of a declining unemployment rate.

The type of moderate and sound rate of recovery that is consistent th declining inflation can bring the memployment rate down to the 6-5.7-percent range within the next five to six years." he said. Only a stained economic recovery could achieve even that level, since it would write the addition of 15 million jobs — five million for those cyclically memployed plus 10 million for workers entering the labor force.

Improving Job Skills

Reducing structural unemployment, be suggested, will mean improving the skills of those 16 to 24 years of age who make op 40 percent of all nemployment. It will also mean training programs for chronically nemployed adults with low skills and retraining for skilled workers who are lost their jobs in declining industries.

PANT President Ronald Reagan, who has been using the term "structural nemployment" in recent public statements, appears to have accepted E Feldstein approach.

But some economists see the analysis on which it is based as too mple. Professor Leonard Rapping of the University of Massachusetts, or instance, maintains that "you can't divide unemployment into those riors." He notes that, as the overall unemployment rate rises or decisions. "He notes that, as the overall unemployment rate rises or decisions, it is the state of the proportionately, in response to the missiness cycle. Hence, he suggests, reducing structural unemployment are response to the suggests. an be achieved by more vigorous economic growth,

Similarly, James J. Hughes, dean of the faculty of the University of cent at Canterbury, England, and Professor Richard Perlman, in an article in the current issue of the Journal of Post-Keynesian Economics, rek to prove that the "convencental" division of unemployment into ryclical and structural tends to understate the extent to which an in-terease in the unemployment rate is due to a deficiency in aggregate memand for what the economy has the capacity and manpower to pro-

Inflationary Pressure

Admittedly, pushing aggregate demand to a level at which unemployment might sink lower and faster than the 6- to 7-percent rate that Mr. reldstein now foresees as coming only after five or six years might create attractionary pressure. But such pressure might be contained by without of folicies to restrain wages and prices, rather than by maintaining so much tack in the system — the "shadow incomes policy," as some economists

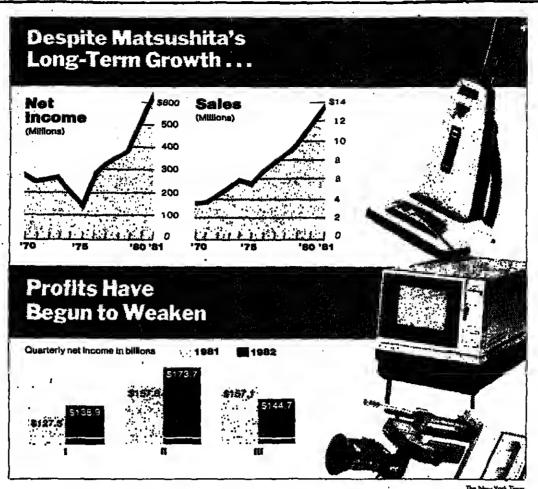

ripped of all it, of the Reagan administration.

Other explanations of structural unemployment that put less weight a the demographic characteristics of the unemployed might lead to ther pobcy conclusions. Some economists attribute much of the rise in nemployment to the impact of the oil prices rises of the 1970s, which it durable goods industries, such as autos and steel, especially hard.

U.S. unemployment in durable goods manufacturing rose to 14.9 per-ent in September 1982 from 4.4 percent in January 1979, when the cond oil price rise came, but unemployment in finance and service idustries, far less dependent on energy, rose to only 6.8 percent from I percent in that period.

This structural factor points to a different type of solution, focused on recoming the effect of high energy costs on output and jobs of particur industrial sectors.

The New York Times...

Matsushita Moves Into Computers, Robots as Earnings Growth Slows

By Steve Lohr New York Times Service

OSAKA, Japan - The formula was set some six decades ago. A maverick entrepreneur, who bad been orphaned as a child and quit two jobs before launching his own business, started with less than \$100 and an electric light socket of his own design. Wheo the business failed, he pawned his wife's kimono to stay

afloat and designed an electric plug.

That plug will never be mentioned in the same breath with Thomas Edison's lighthulb, but it sold for 30 percent less than plugs made by rivals, and rescued the faltering fortuoes of a man who is by now the best known and most respected businessman in this country: 88-year-old Konosuke Matsushija, often called "the Henry Ford of Japan." That plug also marked the start of Matsushija Electric Industrial Co., the world's largest maker of consumer electronic goods.

The Matsushita empire today locludes 39 manufac-turing operations and 28 sales companies throughout the world. Its 14,000 different products, ranging from

rice cookers and vacuum cleaners to video cassette recorders, stereos, and television sets, are sold in 130 countries. Twenty-two years after the company began its entry into the U.S. consumer market, its Panasonic and Quasar brands have become household names, (It also sells under the National and Technics brand

Despite its enormous size, the company's performance in the marketplace has been nimble to recent years. From 1977 through 1981, annual sales in-creased 77 percent to 3.4 trillioo yen (\$14 billion). During the same period, net income doubled to 15.5

But the era of double-digit growth may be at an end for Matsushita. Most analysts believe the company's carnings grew only 5 to 6 percent in the fiscal year that ended Nov. 30. In part, the slowdown is due to the worldwide re-

cession and the consequent weakness of the Japanese economy. But Matsushita may also be coming up

U.S. and EC Plan **Combined Effort** On Trade Disputes

By Axel Krause

International Herald Tribune
BRUSSELS — The Reagan administration and the European
Community agreed Friday to
move jointly to seek solutions to
their summering differences over agricultural export subsidies and to avoid a trans-Atlantic trade war. "I don't expect a trade war,"
John R. Block, U.S. secretary of
agriculture, told reporters later
Friday. "ft would be bad for every-

Mr. Block was one of five U.S. cabinet officers meeting with their counterparts in the European Community, in only the second U.S.-EC conference on that level ever held.

Specifically, U.S. and EC offi-cials agreed to draw up an invento-ry of outstanding problems, which will be studied by senior officials on both sides in January. They will report back to the cabinet-level group in March for a review and possible action.

"We will list all the problems and possible actions," said Gaston Thorn, EC Commission president.
The accord emerged during a three-hour meeting that also included talks on economic and financial relations. East-West trade issues and results of a trade conference held in Geneva two weeks

Commenting on the meeting Friday and a decision-to continue seeking a common aproach to East-West issues, Secretary of State George P. Shultz, the leader of the U.S. delegation, said: "It all adds up to a great big plus."

Responding to a reporter's ques-tion. Mr. Sbultz said that, partly as a result of the meeting be viewed the relationships between the United States and the European Community as "moving in a positive di-

The agriculture study, U.S. and EC officials said, will address such questions as export subsidies and their impact on markets and ways in which commodity pricing and production might be adjusted or coordinated to reflect market con-

oordinated to reflect market con-itlons.

erate gain of 2.7 percent in Sep-

The General Accounting Office said in a report released Thursday

porters that the study could not be aimed at a negotiation to dismantle the community's Common Agricultural Policy. "We are just getting started." Mr. Thorn said, "The CAP is not negotiable and we must respect one another's poli-

cies."

Mr. Block, who previously has been one of the most outspoken critics of the policy, told reporters in response that "we have not quareled with CAP but the spillover into international markets."

U.S. and EC officials indicated that a possible solution to expect

that a possible solution to export problems could be approached on a case-by-case or product-by-product basis. But Mr. Block and other U.S.

officials indicated that they were opposed to any market-sharing ar-

"We are not going to divide up markets," Mr. Block said. But be added that it was still to early to comment on how the issue of EC export subsidies can be resolved.

Mr. Thorn said that the basic

aim was to "avoid destruction of the world agricultural market," referring to previous U.S. threats to retaliate against subsidized EC ex-ports by dumping some of the United States vast surplus of dairy products and offering subsidized loans to developing countries to huv U.S. grain. Mr. Block was concommittal

when asked about prospects for dumping dairy products on the world market, as the administration and U.S. senators and representatives had previously threat-ened. Mr. Block said the administration bad decided neither to withhold acoon nor take action.

"We leave that open," be said. Mr. Thorn said that examples of U.S. practices in the international export field also were discussed, along with measures being taken within the EC aimed at reducing farm surpluses, citing sugar as an example.

Some Analysts Preach Merits of Buying Gold

New York Times Service NEW YORK - The price of ald has shown some signs of reviif in recent weeks as the metal's tice has moved generally higher.
London Friday afternoon, gold as fixed at \$435.75 an ounce, two from \$437.50 a day before

at up from \$411 a month ago and recent low of around \$300 last Still, the recent increases are a ir cry from the manus that sur-

Aunded the metal in 1980, when A price was as high as \$250 an ance on Jan. 20 and \$700 in early ctober. Since then, disinflation -a slowdown in the rate of price icreases - has become the buzz-

Mark Climbs Against Franc

Compiled by Our Staff From Dispatches
PARIS — The Dentsche
mark was fixed Friday at its highest level against the French franc since last June's realignment of the European Monetary System.

francs per 100 DM, after opening at 283.65 and being fixed. Thursday at 283.14, dealers said. They said the Bank of France sold 50 million to 60 million DM at the fixing to

Support the franc.
Dealer traced the franc's weakness to figures released this week that showed that " France's reserves of foreign currency are contiouing to erode. There was also speculation that there would be another realignment, though market participates termed that unlikey. In London, the dollar closed modestly lower against most CUITCHCICS.

prices have tumbled for a variety of commodities once avidly sought by investors as protection against inflation.

The so-called smart money, according to conventional thinking, went to U.S. Treasury bonds yield-ing 14 percent, a return that seems attractive compared with this year's inflation of about 5 percent in the United States. So great was the disenchantment

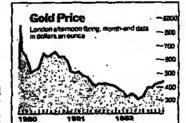

with gold in 1981 that two of the best-known "gold bugs," James Dines and James Sinclair, dropped from public view and retracted recommendations that the metal be purchased. But some analysts still find mer-

it in buying gold. Raymond T. Dalio, head of Bridgewater Con-sultants, a Connecticut-based consulting firm, concluded in a recent analysis that the more stimulative monetary policy of the Federal Re-serve was a reason to be "bullish on gold and silver prices and bearisb on the dollar."

He estimated that the central bank must keep the money supply growing at a 15-percent annual rate for at least six months for the economy to grow sufficiently. Continued money supply growth at that rate will bring more infla-tion, he said, but the failure to pursue such rapid money supply growth would be painful to the world economy.

According to analysis at Money Market Services, a San Francisco-hased consulting firm, the price of gold is a good enough measure of inflationary expectations so that n is of concern to monetary policy makers in the Federal Reserve. These analysts conclude that some of the very recent gold price increases appear to mirror some renewal of inflationary expectations as well as loog-range expecta-tions of a weaker dollar.

Eugene J. Sherman, a vice president and economist at International Gold Corp., the marketing arm

retail sales up 2.3 percent in No-

vember, the best performance since May, the Commerce Department said Friday.

Separately, the Labor Department reported that wholesale prices and the Commerce of the Commerce

es rose 0.6 percent in November,

mostly because of the rising costs for natural gas and bome heating

The big improvement in retail

sales was largedly confined to au-tomobiles, where manufacturers

have worked hard on sales incen-

oves. Auto sales jumped 10.6 per-cent to \$17.75 billion, the sbarpest

of the South African gold mining industry, says that the case for buying gold is stronger oow that the economic policies of the United States are primarily aimed at economic recovery and job cre-

"The policies evolving now seem familiar to anyone who has ob-served a series of business cycles." Mr. Sherman said. Lower interest rates, job creation and protection-ist measures to shield local industry and labor from foreign compe-ntion all indicate that Washington officials have decided that stimulating the economy is more important than controlling inflation, he said. Even the Federal Reserve has moved from fighting inflacion to

stimulating the economy. In time, these measures will be successful in bringing on the economic recovery, most economists nomic recovery, most economists agree. And given the low level of capacity utilization, high unemployment, gains in labor productivity and low commodity prices, the economy can function "for a period without triggering a renewed surge of price increases," Mr. Sherman said. "But once set in motion, the forces of inflation are motion, the forces of inflation are likely to gain momentum.

Wall Street Prices Drop Sharply After an Early Rally Peters Out

Compiled by Our Staff From Dispatches NEW YORK — Investors re-mained shaken Friday over bad oews reported by some recently strong technology issues, and prices on the New York Stock Exchange declined for a third straight

els a year earlier. But sales have

been so poor that even the latest

improvement did not bring sales

near to what the industry would

consider adequate in a non-reces-

Without the influence of the au-

tomobile sales overall retail sales

would have gone up only 0.5 per-

cent in November, the department reported, the kind of anemic per-

formance typical of several previ-ous months. Sales in October were

up a revised 0.6 percent and 0.9

The Dow Jones industrial average fell about 9.20 points to 1018.76, after being up to 1035.14 at one point early in the day. Losing issues outdistanced gain-

ers nearly two to one. Volume eased to about 86 million from Thursday's 90 million shares. The transportation average, which rose sharply last week oo strength in airline issues, closed with a decline of 3.38 to 438.92. Some video game and home computer stocks were again battered, but others regained

Mattel, a video game maker that said it would lose money in its fiscal fourth quarter, lost 6% to 16%. Warner Communications, Thursday's standout loser, retreated

another % to 341/2. Robert Stovall, an analyst with Dean Witter Reynolds, said investors are still "shaken over the fragility" of these and other technolo-

Reports that the video game business was suffering price competition caused a massive selloff of ssues in that industry in the last

MORGAN GUARANTY TRUST CY OF NEW YORK BRUSSELS BRANCH

Some video game stocks made up lost ground. Commodore Internadonal gained 14 to 711/2, Coleco rose 11/4 to 361/8 and Toys R Us. a

vidco game retailer, gained 2% to However, Texas Instruments, which makes personal computers, lost 414 to 1351/4 and General Instrument, an electronic parts supplier, fell 1% to 49%.

Amerada Hess was acove and higher most of the day; a block of 271,000 shares traded at 2814.

Analysts said investors were also troubled by Treasury Secretary Donald T. Regan's statements that the U.S. dollar could weaken. If this happens, they argue, the Fed

may be forced to tighten credit to stem the flow of iovestments out of

the United States.
Investors apparently had mixed reactions to the Labor Department's report that November wholesale prices rose a larger-thanexpected 0.6 percent. The annual rate still is far below the doubledigit levels of the past couple of years. But investors were concerned that faster money supply growth would prevent the Federal Reserve from easing credit soon in order to revive the economy.

Monte Gordon, vice president of Dreyfus Corp., said: "Unless the economy shows clear signs of recovering the stock market will continue under pressure."

production and this embedded and the second of the second STOCK ADVICE For Next 2 Months Only \$7.50 (\$29.20 Value) if you will fill in the coupon below and raturn it to us we'll send you our easy-to-read

If you wall his in the coupon below and return it to us we a send you our easy-no-team stock market Advisory Service and Advisor every week for the next 8 weeks. This is a \$29-20 value based on our regular price, but all you send is \$7-50—which is about the price of two issues. You serve \$21.70. Included are our weekly Market Commentary, Stock Service Digest—Digest of 30 Advisory Services, Buy-Sell-Hold Advice on 700 stocks, Dow Theory "Buy" and "Sell" signals on the general market, Business Outlook, Industry Surveys, Analysts Chaices and Tax Servings and Cutting Techniques, Shock recommendations include. (1) Stocks recommended by 30 other Advisers; (2) Growth Shocks; and (3) "Investment List."

15 Capital Gains Stocks and 30 Stocks Split Candidates You also receive our list of "15 Favorite Capital Gains Stocks" including 5 low priced stocks. And our Buy-Sell-Hold advice is affected on 22 glamour assets such as Syntex, Avon, Disney, Burroughs, IBM and Xerox. You also receive our list containing 30 stock split conditions. sper concentres.

Fill in the coupon below and send it today with \$7.50 for on 8 week trial of Dow Theory Forecasts. Money-back guarantee. Offer open to households with no trial subscription in the last 12 months. (Subscription cannot be assigned without your consent.)

Alaska Plane Crash Kills 8 United Press International

KETCHIKAN, Alaska — A sin-gle-engine DeHavilland Beaver crashed into a mountain on Prince of Wales Island Thursday, killing all eight persons aboard, authoriues said.

U.S.A.: Sandy O'Hora, Internation-of Herald Tribune, 444 Madison Ava., New York 10022, Tel. 212,757.3890.

HONOLULU - The New York HONOLULU—The New York
ankers have signed Steve Kemp,
free agent ontrielder, to a fivefree agent ontrielder, to a fiveantielder-first baseman, Dave
tilleder-first baseman, Dave
colling, whom they signed as a
exagent a year ago.

Kemp; who played this season
to the Chicago White Sox, agreed
a contract reportedly worth \$5.5

allien plus incentives. Collins was ign maded to the Toronto Blue paid \$830,000 this year. But be my a disappointing 253 in 111 games and had only three homers and 25 min Fred McGriff and an unangular mount of cash, in expension of the paid \$830,000 this year. But be my a disappointing 253 in 111 games and had only three homers and 25 min fred mount of cash, in expension of the paid \$830,000 this year. But be my a disappointing 253 in 111 games and had only three homers and 25 min fred my min fred my man and without a set position. sange for right-handed reliever Tom Dodd.

In other transactions Thursday in impor league baseball's annual synter meetings, the Philadelphia hillies unded second baseman stanny Trillo and four other playes to the Cleveland Indians for nfielder Von Hayes. In the deal, as Indians acquired outfielder eorge Vukovich and three rooktes: shortstop Julio Franco, catcher Jay Willard and pitcher Jay

The Indians also sent shortstop arry Milbourne to the Phillies for player to be named later, and the anded pitcher Rich Bordi to the nicago Cubs for outfielder Steve Menderson.

In addition, the Los Angeles
Jodgers and Texas Rangers
greed on a deal that would send
michers Burt Hooton and Dave Rewart and a pair of minor raguers to Texas for catcher fim ndberg. But both Hooton and andberg will have to approve the nove since they are 10-year major All Deleaguers with at least five years on heir present teams.

Until the sudden flurry of activiy, only one significant deal had seen completed since the meetings segan over the weekend. On Monlay, there was a five-player trade an which third baseman Carney ansford went to Oakland and Confielder Tony Armas was acjuired by Boston.

totes

Kemp, 28, hit 286 with 19 home runs and 98 runs batted in with the White Sox this season. He is not considered a very good defensive the Yankees' owner, George Steinbrenner. "I'm a great guy for discipline and hustle, and that's Kemp's middle name," Steinbrenner said. "He gives 100 percent. He'll turn New York on."

Kemp is the 19th free agent, starting with Catfish Hunter in 1975, that Steinbrenner has signed, and the 14th who has signed a contract worth \$1 million or more. He becomes the second highest paid Yankee, behind Dave Winfield

and just ahead of Ken Griffey.
Collins, a 30-year-old switch
hitter who came to the Yankees last winter as a free agent after four years with Cincinnati, was paid \$830,000 this year. But be hit

Morgan, 23, started 23 games for the Yankees this season and had a 7-11 record with a 4.37 earned run average. Murray, 32, who has also played with the New York Mets and Montreal Expos. had his best year in the big leagues this season. Used exclusively as a reliever by the Blue Jays, he was 8-7 with 11 saves.

Even with Collins's departure the Yankees still have six outfielders — not counting Don Baylor, who will be used primarily as a designated hitter. Baylor, formerly of the California Angels, signed a five-year, \$4.5-million contract as a free agent last week.

In trading Trillo, 31, the Phillies gave up a three-time all-star who batted 271 in 149 games this season and set three major-league fielding records. A primary reason for the trade was his salary de-Hayes, 24, hit only 250 for the

Indians as a rookie this year but had 14 homers and 82 RBI. Vukovich, 26, who became the Phillies' right fielder against right-handed pitching in June, finished with a 272 average, six homers and 42 Milbourne, 31, was traded for

the fourth time in a year. He began the season with the Yankees, was traded to Minnesota and then acquired by Cleveland, where he had a 275 average in 82 games. Scattle's acquisition, Henderson,

30, has a .282 lifetime batting average but hit just 233 with only two homers and 29 RBI this season. Bordi, 23, spent most of this year with Salt Lake City of the Pacific Coast League and had a 12-9 record with a 4,49 ERA.

in the owners' meetings Thurs-day, the National League re-elected its president, Charles (Chub) Feeney, and rejected use of the designated hitter.

Bradshaw: The Surprises Are Usually Pleasant

PITTSBURGH — After 13 foothall seasons together, you'd think the Pittshurgh Steelers' quarterback, Terry Bradshaw, would be incapable of surprising his coach, Chuck Noll.

Chuck Noll.

Not true, Noll says.

"Terry constantly surprises me," said Noll. "Usually on the plus side. About 99 percent of the time on the plus side."

That's why even Noll was surprised last week when Bradshaw, listed as questionable because of a severely sprained right shoulder, threw for three touchdowns and 231 yards in just three quarters of play as the Steelers defeated the Kansas City Chiefs, 35-14.

The performance, in which he completed 75 percent of his passes, was one of the best of Bradsbaw's career. Terry Bradshaw has been valuable to

this team for a long time," Noll said. "He called plays from the wrong formations and they still worked. He was able to execute even when everything else was screwed up." Noll couldn't be any happier with the way Bradshaw has played in 1982, since this was a pivotal season for the quarterback from

Louisiana - and for the Steelers. After winning four Super Bowls in six years, the Steelers missed the National Football League playoffs in 1980 and 1981. Bradshaw himself said be wasn't happy with

his play.

And after Cliff Stoudt, a reserve quarterback, played well in the Steelers' first two exhibition games, there was a question whether the 34-year-old Bradshaw would be

at quarterback when the Steelers opened the But Bradshaw was certain he wasn't finished. He responded with two excellent performances in exhibition games against Balti-

more and Philadelphia, and there has been no question since who the starter should be. Bradshaw has led the Steelers to four victories in five games and is at the top of the NFL performance statistics. He bas completed 82 of 137 passes for 1,070 yards, 12 touchdowns and just three interceptions. He has thrown for three touchdowns in four of

the team's five games. Fellow Steelers say Bradshaw has never played better.

"It's a real joy playing next to a piece of history," said guard Ron Wolfley. "Do you realize I'm playing with a Hall of Famer, one of the greatest quarterbacks of all

Wolfley said he enjoys Bradshaw as a person, not just a player.
"The thing I've found about Brad is be's a better person than he is a quarterback." Wolfley said. "That's the nice part. So many times you find out the people you admire have feet of clay. Not Brad. He's a real per-

Bradshaw knows that some people in the NFL were wondering if he was still capable of doing the job.

"When a team goes 9-7 and then 8-8, people look at the guy pulling the trigger, and that's me," he said. That was an additional incentive this

year, be said: to prove be still could play the "When you get to be my age, which is young you hear people tell you you're al-most through," Bradshaw said. "I can still do the job, I can still run sprints with the

best of them, and I don't believe that stuff [about age]. I used fear as a motivation this "I came in here thinking. Hey. I might lose my job and I want to show that I'm

better than these guys."

"You know, this guy [Stoudt] is a pretty good quarterback. The way things work, if someone has a great game, he might have the job. I know that I can play and that Chuck is going to play me unless I just fall flat on my face."

Bradehaw has accounted a recountation for

Bradshaw has acquired a reputation for

being able to play with pain. He enhanced

that reputation against the Chiefs.
"I was throwing the ball well," he said. "I wasn't worried about that [the injury]. I was more concerned with what would happen if I took a lick on it, and thank goodness that didn't happen. It means that it [the shoul-der] will be that much stronger against Buf-

The Steelers (4-1) play at Buffalo (3-2) on Sunday, their third road game in the four weeks since the NFL players' strike ended.

The player who has become Bradshaw's

The player who has become Bradshaw's favorite receiver, John Stallworth, said Bradshaw has never played better.
"He makes you hustle all the time. If you think you don't have a chance to get the ball, you might ease up a little. But Terry views the whole field, and if you're open, you might get the ball," Stallworth said.
"It's the confidence that Terry has in the whole receiving come It's not just one gay. whole receiving corps. It's not just one guy, it's Smitty, Swann, Sweeney" — Jim Smith, Lynn Swann, Calvin Sweeney — "and me. He has a lot of trust in everybody."

Stallworth went on: "We still have the tal-

ent to beat people. I think our whole offense has superior talent. When we go out and execute and do things well, we're that much better. The only limit we have is the limit we put on ourselves."

McKinney Edges Hess For Victory in Slalom

LIMONE PIEMONTE, Italy -Tamara McKinney of the United States won her first World Cup slalom race Friday, edging the de-fending World Cup champion, Eri-ka Hess of Switzerland, with a bril-

liant second run. McKinney, 20, who was fourth after the first run, finished the second in 47.93, more than half a second faster than any of her rivals. She had an aggregate time of 1 minute, 36.61 seconds on the 55gate course in this alpine resort on the French border. The course had a 170-meter drop in altitude.

Hess, 21, led after the first leg with a time of 48,17 and finished in 1:36.77. Hanni Wenzel of Liechtenstein was third at 1:37,17, while Maria Rosa Quario and Daniela Zini, both of Italy, were fourth and fifth respectively. "I just cannot believe it," McKinney said after watching her

winning time stand up against Hess's second run. "I skied just as straight and as fast as I could 1 skied wild, I knocked a few gates with my arm on the way down, but at least I've got something to smile A bright sun improved the

course for the second run. "The snow was a little softer and a little more consistent all the way down, McKinney said. McKinney won the World Cup

three victories that season, but this was her first victory in a slalom. Injuries set her back last season.

spent only two days this fall training for the slalom, concentrating instead on the giant slalom. The victory puts McKinney into the season lead io the World Cup standings with 65 points.

She said the American team bad

Hess, who is in second place in the cup standings with 60 points, had few regrets about her finish Friday. "I didn't do too badly, but I went ton wide through the gates at the bottom of the course," she said. "Tamara is very strong, and she will certainly bave a good sea-

Wenzel, 26, the World Cup winner in 1978 and 1980, said her third-place finish proved her form was getting better as the season progressed.

Men's Downhill Postponed The second men's downhill race

of the World Cup ski season was put off again Friday because of high winds and poor visibility at the top of the course in Val d'Isère, France. The race, already postponed from Thursday because of rain earlier in the week, is now to be held Saturday if conditions al-

If the downhill cannot be held Saturday, it will be run Sunday and the super giant slalom, a new event, will take place Monday. If no racing is possible Sanday, the downhill will be run Monday and the super giant slalom will be can-

Gretzky's Streak Ends at 30; He's 'Disappointed but Glad'

The Associated Press INGLEWOOD. California The record-breaking National Hockey League scoring streak of Wayne Gretzky has come to an end, but instead of sounding disappointed, the star of the Edmonton Oilers expressed relief.

"I'm really glad that the streak is over because now I can get back to normal," Gretzky said Thursday night after he was held without a point for the first time this season in the Oilers' 3-3 tie with the Los Angeles Kings. "I'm disappointed but I'm glad."

Gretzky's streak of getting at least one goal or one assist ended

at 30 games. Against the Kings last weekend, he eclipsed the standard of 28 games set by Guy Lafleur of Montreal. He has 24 goals and 52 assists in

Edmonton's 31 games this year. "I had a couple of good chances to score in the last five minutes of the game," said Gretzky. "I was looking for the winning goal, but [goalie Gary] Laskoski made some good saves. But I'm glad it's over because it will belp this club."

Asked if he thought anybody can beat his streak, Gretzky said with a smile that 49 games remain to be played by Edmonton "and I still have a chance."

Rookie Beats Alexander

In Australia

MELBOURNE - Sammy Giammalva, an American rookie, upset seventh-seeded John Alexander of Australia, 4-6, 7-6, 6-1, on Friday to reach the quarterfinals of the Australian Open men's tennis championships.

Giammalva brushed aside a fellow American, Bruce Kleege, in a rain-postponed third-round match, then pulled off the upset of Alexander. He will face second-seeded Steve Denton in the quarterfinals Saturday.

Denton overcame 11th-seeded Jeff Borowiak, 7-6, 6-3, in a tough fourth-round match played on a soggy outside court.

Officials were forced to schedule a total of 17 singles and doubles matches in an effort to put the tournament back on schedule following two days of rain. The singles matches in the third and fourth rounds have been shortened to three sets, but the quarterfinals will be five sets.

The final match has been postponed from Sunday to Mooday. Brian Teacher, winner of the 1980 Australian title, was in magnificent form Friday as he trounced Phil Dent, 6-4, 6-2. Teacher will meet Hank Pfister, who defeated John Sadri, 6-3, 4-6,

Johan Kriek, the defending champion and top seed, defeated Charlie Fancutt, 6-2, 6-2, and will play Drew Gitlin in the quarters. Gitlin knocked out Damir Kerene 6-3, 6-4, in their fourth-round match after defeating Mike Estep in a postponed third-round meeting, 6-3, 6-4.

Men's Sloyles, Third Round

Dolphins Ratify NFL Pact

The Associated Press MIAMI — The Miami Dolphins approved the new National Foot-ball League contract Thursday, a club spokesman said. Most of the other clubs approved the contract Wednesday. Exact figures were not given for the Miami vote.

Set by WBC for Safety and predicted lighters would op-Vashington Post Service

12-Round Title Fights

WASHINGTON - The World Boxing Council has voted to limit

title fights to 12 rounds instead of 15, beginning Jan. 1, The WBC, one of the two principal title-light sanctioning bodies, also will institute a standing eight-count for lighters in difficulty. The standing eight-count is already used in amateur boxing. In professional bouts, no count is begun until a fighter touches the canvas.

The measures were approved Thursday by the organization's 21member executive committee in response to recent public concern over the safety of the sport. Duk Koo Kim, a South Korean lightweight, died after he was knocked out in the 14th round of a title fight with Ray Mancini last month, and two other recent title

month, and two other recent title fights were publicly criticized after challengers took poundings.

The Kim fight and the Alexis Arguello-Aaron Pryor junior middleweight title bout a day earlier were sanctioned by the WBC's principal rival, the World Boxing According which has made and Association, which has made no

rules changes.
The WBC sanctioned Lan Holmes's heavyweight title defens Nov. 26, in which Holmes pound ed Randy Cobb almost at will fo 15 rounds. The decision to cut back to 13

round title fights "will change boring history because it will preven boxers from suffering irreparab injuries," Alfredo Lamazont, WBC spokesman, told The Assoc ated Press in Mexico City. But the rules changes met wit less than total enthusiasm in th

boxing community. "My reaction is one of happ ness that a world organization moving toward boxing safety I taking a first step," said Dr. Ferd supervises many boxing matches and is a television commentator. "But this is no cure-all," he said of the 12-round limit. "It will not stop boxing fatalities." Pacheco, a Miami physician wh

Pacheco said deaths in amateur boxing, where bours last only three rounds, far outnumber fatalities in And Pacheco called the standing eight-count inappropriate for professional boxing, where the empha-sis is on punching power rather than style. He said he feared a

standing eight-count would change the character of the pro game. "It's the wrong tool," said Pacheco. Cus D'Amato, a veteran trainer and light observer who handled the heavyweight champion Floyd Patterson, opposed both moves. He said the 12-round title light

limit "has no bearing on safety. D'Amato said a standing eightcount would work against punchers, "the most exciting fighters,"

pose the change. He asked, "Must we change the rules because we have a bunch of incompetent trainers who don't train their fighters

And Jimmy Jacobs, manager of Wilfred Benitez, who lost the super welterweight title last week to Tommy Hearns in a 15-round decision, said that the 13th to 15th rounds are not particularly dangerous for fighters.
"Of the last 26 ring deaths," said

Jacobs, whose hobby is ring history, "only four occurred in the 13th, 14th, or 15th rounds." The 12-round rule "certainly won't do any harm," said Jacobs, "but it doesn't address the real issue."

According to Pacheco and others in the fight game, the real issue is the establishment of uniform rules and safety standards, enforceable by some national govern-ing body, for all boxing matches.

Laughing Fit to Cure

W ASHINGTON — Two make the patient laugh."

friends of mine, Dr. Lau- "Yes, sir." rence Peter, author of "The Peter Principle," and Bill Dana, a TV comedy writer and inventor of the Jose Jimenez character, have authored a book utled "The Laugh-ter Prescription" (Ballantine Books \$5.95)

The idea, as publicized originally by Norman Cousins, is that laughter is very important to curing iliness. It can affect the cardiovascular system, release tension, change attitudes and stimulate endorphins in the hrain which

are oatural painkillers. If Dr. Peter's scientific facts are hair done.' true (and for the first time physicians are taking laughter serious-ly), we may soon have a new medispecialty called "Humor-

"Intern, what's wrong with the

"He's lost his sense of humor. We're hoping to get a transplant from a comedian in Las Vegas who dropped \$750,000 in a casino and has left his body to us when the people there try to collect."

"It may oot get here in time. Give him two Laurel and Hardy reels, and 10cc's of Groucho

"It doesn't seem to affect him. We put him on two hours of Henmy Youngman and he dido't even

"Give me my Richard Nixon rubber mask. Mr. Roseobaum, look up here. 'My Fellow Americans. I am not a crook! Ha, ha,

"He's not responding sir."
"Let's resort to the old chair trick. Iotern, you start sitting down in the chair, and I'll pull it out from under you.'

"Do I have to, sir? The last time you used that medical technique I was in a hack hrace for a month. "Son, if you're going into 'Hu-morpedies' you don't think of yourself. Your only concern is to

Detroit Symphony Strikes

The Associated Press DETROIT - Detroit Symphony Orchestra musicians went on strike Thursday in a dispute over pay and the procedure for picking a new music director, officials said. Orchestra officials canceled scheduled weekend performances at Ford Auditorium

"Mr. Rosenbaum, watch this. Young Doctor Kronkite is going to sit down — Ocops, sorry about that, Kronkite. What's the trouble,

"Rosenhaum iso't laughing, doctor, but Kronkite is writhing in

"Send him down to Emergency and inject him with two chapters of Benchley. Miss Harlequin, do you have any banana cream pies in the medicine cabinet?

"Oh no, Doctor! I just had my That's an order, ourse. Wait

until you see this, Mr. Rosenbaum. It will kill you. I didn't mean that literally, of course. We're trying to make you feel better." "Here's the pie, sir."

"Are you ready, nurse? 'Splat' Ha, ha, ha, ha, ha, was Wasn't that comething. Rosenbaum? You didn't think so? Wash yourself up, ourse, and send in Dr. Shecky. I think I'm going to have to have a consultation."

"What's the problem, Slapsie?" "I did the whole treatment, Shecky, from Laurel and Hardy to the banana pie in the nurse's face, and he doesn't respond. I've run out of ideas."

"Let's see the chart. Did you try reading him David Stockman's budget?"

"I'm afraid to use it. It could ei-ther make him laugh or put him into a coma."

into a coma." "Has anyone tried tickling

him? "You know that's unethical. Shecky. If we touch the patient we could be slapped with a million-dollar malpractice suit."

"I have an idea. We used this treatment at Doctors Hospital when I interned there. I'll be right

"Where are you going?

"To the accounting office."
"Don't worry, Mr. Rosenbaum. Dr. Shecky is the greatest humorpedist in the country. He ooce implanted a laugh track in Ed McMahoo's chest. Here he

"Mr. Rosenbaum, take a look at this."

"He's laughing, Shecky! He can't stop laughing! What did you give him?" "I showed him his hospital bill for the week. It never fails to break a patient up.

Styron, Stingo and Sophie

New York Times Service

NEW YORK — As he struggles to write his first novel, Stingo, the young hero of "Sophie's Choice," dreams of becoming "a writer — a writer with the same ardor and the soaring wings of the Melville or the Flaubert or the Tolstoy or the Fitzgerald who had the power to no my heart out and keep a part of it and who each night, separately and together, were summoning me to their incomparable vocation." Stingo, of course, is an antobiographical version of his creator - a portrait the author as a young man, innocent of history and hungry for artistry and fame — and, at 57. William Styron has now spent

some three decades working on that vocation. Like Stingo, he wrote a precocious first novel ("Lie Down in Darkness") about 2 young Southern girl and her familial legacy of guilt. Like Stingo, he followed that achievement with a short novel ("The Long March") about his adventures in war - "a taut, searing book eviscerating the military in a tragicomedy of the absurd," as he described it in "Sophie's Choice"; and, like Stingo, he also wrote a lengthy historical covel ("The Confessions of Nat Turner") chronicling the life of "that tragic Negro firebrand." Yet, while a middle-aged Stingo talks of the "pooping-out of ego and ambition," Styron says that he feels no diminution of powers, only a pleasant placation of devouring ambition.

"I feel I'm at a good point," he says. "I feel healthier than I did years ago when I was drinking a lot, and I think I write with somewhat more ease than I could long ago. Looking back, I think I see a growth and maturatioo—certainly in my style. What I'm saying is I think the style of a book like 'Sophie's Choice' shows a kind of serenity that my earlier than the style of a book like 'Sophie's Choice' shows a kind of serenity that my earlier than the style of a book like 'Sophie's Choice' shows a kind of serenity that my earlier than the style of t er work does not have, and in that sense I'm pleased. It's the quality of not calling attention to one's own language. It was also very, very good to feel such a sense of having written a book that sort of worked on all the levels one wished it to work on and in these various incarnations."

Certainly one of the incarnations Styron is referring to is the movie version of "Sophie's Choice," starring Meryl Streep, Kevin Kline and Peter MacNicol, which just opened in the United States. As readers of the oovel recall, "Sophie's Choice" coocerns the friendship that develops between Stingo and a couple he meets one summer in New York: Sophie, a beautiful but haunted survivor of Auschwitz, and Nathan, her darkly charming lover. It is a complicated story about innocence and evil, memory and desire - a story about the way in which the past intrudes, relentlessly, upon the present. Styron says he realized from the start that any cinamatic version of the book would have to be more "a translation than a literal rendition "

Alan J. Pakula, who adapted as well as directed the film, had expressed interest in the oovel before it was published, and Styroo says

William Styron

he was impressed by his earnestness and vision. "Alan's very visual and saw things which I did oot see," he says. "For instance. Sophie's room is splashed with color — Alan has seized on it as metaphor for her life in Brooklyn, as opposed to these other monochromatic scenes in Auschwitz and prewar Poland, which are very grim. He also saw much larger meaning in the friendship of Stingo and Sophie and Nathan — he sees a kind of physical, almost sexual connection between the three of them that dominates the first half of the story. It's perfectly legitimate, though I just didn't see the relationship with that much emphasis."

Aside from meeting with Pakula to make suggestions about the script, Styron had little involvement in the film - he neither watched the shooting nor participated in the editing. In October he saw a rough cut for the first time. "I think Meryl's performance is the best performance I've ever seen by an actress in the movies," he says. "I could pick at the movie itself certainly, but I felt there'd been no violation whatsoever of my work."

Although Styron and Pakula agreed that "Sophie's Choice" was, in the author's words, essentially a story about "the awakening of a young man from innocence into revelation. it is also a story played out against the histori-cal background of World War II and, like Styron's previous oovels, touches upon other ambitious themes. This penchant for creating novels with large canvases no doubt stems, in part, from a suspicion that his own life, in his words, "has been rather ordinary - vast areas of it are just oot dramatie or interesting enough to write about"; in part, from his turn that "to write a mighty book, you oeed a

mighty theme."
"I think too many writers in recent years have been boriog or insignificant because they haven't sought themes commensurate with their imaginations. There's nothing wrong with the material of middle-class life - that's been the bread and butter of contemporary writing for centuries -- hut, again, I think one has to either establish a new theme around it or in some way invigorate this raw material. I think [John] Updike does it rather well. At his best, he's probably our best internist of middie-class life, its delights and diseases. But he's an immensely gifted writer, and I think others who have attempted this have come back with the same old tired stories."

There is, Styron believes, "some sort of poetic apprehension, an excitement, that comes wheo you're writing about the most important thing within your command." His own novels - as he cotes in "This Quiet Dust," his new collection of essays — tend to focus on one recurrent theme, namely "the catastrophic propensity on the part of human beings to attempt to dominate one another." Combined with a Southerner's heightened sense of history, this theme tends to result in a visioo at once tragic and fatalistic.

A gothic taste for violence frequently informs the novels — murder, suicide and rape are recurrent motifs — and, for all their differences, Styron's protagonists remain alike in one respect: All of them are victims, casualties of history and such social institutions as slavery as well as their own failings.

There doesn't seem to be any rational order in existence," Styron says. "This is cer-tainly not an original view, but it seems to me that human beings are a hairsbreadth away from catastrophe at all times—both person-ally and on a larger historical level, and this, perhaps, is why I've written the sort of books I have. I mean, I was never a slave nor was I at Auschwitz, but somehow these two modes of existence sort of grabbed me and became a kind of metaphor for what I believe a great deal of life is about."

Comments on Film

Janet Maslin, writing in The New York Times, says that the film version of "Sophie's Choice" reflects the novel "so accurately that both its strengths and its weaknesses remain intact," while Streep as Sophie "accomplishes the oear-impossible" in a performance "of such measured intensity that the results are hy

turns exhilarating and heartbreaking."

In the Los Angeles Times, Sheila Bensoo praises Streep's "incandescent" portrayal, but says the film "in faithfulness to the weight of the book . . , has lost speed and urgency." Gary Arnold, in The Washington Post,

lauds Pakula's "remarkably accomplished and purified movie distillation of a dubious literary work" and finds "greatness in the extraor-dinary performances" of Streep, Kline and MacNicol."

PEOPLE

What to Give a Guru

Devotees of Bhagnan Shree Rajneesh wanted to give the gurti comething special on his 51st birthday, so they picked out just the thing: his 24th and 25th Rolls-Royces. Ma Prem Sheela, a spokeswoman for his communeranch in Rajneeshpurasu, Oregon. said the guru from India will celebrate his hirthday Saturday with live in disciples and a few who have traveled for the event. The disciples moved onto the 100square-mile ranch last year and incorporated their own city this year. The ranch is owned by a foundation associated with the guru. Sheela said the Rolls-Royces actually belong to the Raincesh lavestment Corp. The guru drives at least one of them every day. Commune leaders said recently they give him the cars to repay him for the love he gives them and the

John C. Baker, the 22-year-old son of James Baker 3d, the White House chief of staff, faces up to 20 years in prison if convicted of charges of selling marijuana to an undercover officer in Pearsell, Tex-as, officials say. Young Baker, who lives on his father's 8,000-acre ranch near Pearsall, was freed on \$10,000 bail. He was arrested Tuesday and accused of selling more than one-fourth of an ounce of marijuana to an agent July 23.

Robert Kennedy Jr., has his woes. He just got over the flu, he told a New York newspaper that his dog was AWOL, and now he apparently has flunked the New York State bar exam, one of the toughest in the United States. His wife, Emily, who took the test at the same time, passed but she's out of work anyway — she works for the striking Legal Aid Society. Kennedy, an assistant Manhattah district attorney at \$20,000 a year, can keep working until he takes the bar exam again in February.

Steve McPeak abandoned his high wire protest against President Ronald Resgan's \$1,2-billion loan to Brazil. He elimbed off a cable 750 feet (230 meters) above Hoover Dam Thursday as a rainstorm hit the southern Nevada area, aod was arrested immediately by security officers, McPeak, 39, will appear before a federal magistrate on charges of trespassing and disorderly conduct.

The family of the Cuban pact,

Armando Valladares, who counc to France in October after 22 years as a political prisoner in Cuba, arrived in Paris Friday from Havana. The poet's mother and sister, along with his brother-in-law, Ramiro García Lopez, and his mother, planned to leave Saturday for Miami, Florida, 10 attend Valla-dares's wedding. Valladares was freed from prison two months and after the personal intervention of President François Mitterrand and arrived in France Oct. 22. He was sentenced 22 years ago to 30 years io prison as an enemy of the state. Valladares and his wife, Marte, left Paris Thursday for the United States. They were married in pris-on in 1969. They plan a religious wedding in Miami Dec. 18 and will return to Paris after the New Year.

filed a \$62.3-million civil suit against a Beverly Hills surgeon and 23 others he accuses of con-spiring to steal millions of dollars in an from his mansion in Los Angeles. The suit named Kurt Wag-ner, a plastic surgeon, his wife. Kathleen, Michael Lewis, Neal Krone and 20 unidentified individuals as defendants. The suit claimed Wagner and Lewis received some of the stolen properowner of an art gallers where some of the works were found. The theft allegedly happened just before fire gutted the sheikh's gaudy mansion on Sunset Boulevard in Beverly Hills Jan. 1, 1980. The suit claims the fire was set to cover up the then. The sheikh and his mansion have made headlines since he ordered the private parts of nude sta-tues on the grounds painted and redecorated the estate in such a way as to iofuriate neighbors. Al-Fassi is also currently involved in a multi-billion-dollar divorce action.
